Coordinator:	Dr Katrina McFerran
Subject Overview:	This subject provides students with clinical experience of music therapy. Placements will be in special education and nursing home settings under the guidance of a registered music therapist. The placement will include a graded introduction to the assessment of client needs, the development of program plans and the provision of music therapy interventions. Students will have both observational and participatory experiences of working with clients and evaluating and measuring benefit from the intervention. Tutorials will develop students understanding of professional practice and develop therapeutic skills for practice.
Assessment:	A written assignment of 3000 words detailing an intervention with a group or individual (70%), due end of semester. Clinical training assessment, completed by supervisor (30%).
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	On completion of this subject, students should have: refined their observation skills for human interaction; developed analytical skills for interpreting human interaction; developed skills for reviewing literature and applying theory to practice.
Related Course(s):	Master of Music Therapy
