Course Overview:	<p>This course aims to provide students with wide ranging skills that will enhance their effectiveness as managers working in international business. It provides a solid grounding in strategic thinking, relative to international and global market operations, and an understanding of how operating across borders impacts on functional areas (such as marketing, accounting, finance and HRM). This course should also develop an awareness of the policies governing the world trade and investment system, from the perspectives of a sovereign country, a regional trade bloc and a supra-national institutional (such as the IMF, World Bank and WTO). The course emphasises the Asia-Pacific region and pursues a cross disciplinary approach to analysing and solving complex problems.</p>
Objectives:	<p>1. Learning Goal Graduates of this degree will be able to generate and analyse data relevant for strategic management decisions in the area of international business. Learning objectives to achieve this goal On successful completion of this degree students will be able to:</p> <ul style="list-style-type: none"> # Describe, explain and apply the fundamental principles of strategic management; # Identify the various sources of sustained competitive advantage of firms engaged in international business; and # Evaluate the impact of cultural, political and environmental factors on decision making in international business. <p>2. Learning Goal Graduates of this degree will be cognisant of the fundamental differences between doing business across borders and operating in a home market environment. Learning objectives to achieve this goal On successful completion of this degree students will be able to:</p> <ul style="list-style-type: none"> # Identify how foreign markets, institutions and cultures differ from one another; # Identify how policies related to trade, investment, intellectual property, and labor and environmental standards imposed by nation states and supra-national bodies impact on international business; # Understand and moderate the impact cultural differences in the operation of international business; and # Understand the contested nature of globalization. <p>3. Learning Goal Graduates of this degree will be effective decision makers in international business and the related public policy domain. Learning objectives to achieve this goal On successful completion of this degree students will be able to:</p> <ul style="list-style-type: none"> # Apply ethical principles and corporate governance strategies relevant to international business; # Evaluate the applicability of various theories and techniques to international business issues; # Employ a range of tools of analysis' pertinent to the evaluation of evidence in international business sector; and # Use evidence based research techniques to support decisions. <p>4.
