ENGM90006 Engineering Contracts and Procurement

Credit Points:	12.50
Level:	9 (Graduate/Postgraduate)
Dates & Locations:	2010, Parkville This subject commences in the following study period/s: Semester 2, Parkville - Taught on campus.
Time Commitment:	Contact Hours: 2 hours of lectures/week. 1 hour of tutorials/week. Total 36 hours Total Time Commitment: 120 hours for the semester
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	Knowledge from the following subject will assist with learning in this subject.

Subject	Study Period Commencement:	Credit Points:
CVEN90045 Engineering Project Implementation	Semester 2	12.50

Non Allowed Subjects:	421-664 Project Delivery
Core Participation Requirements:	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http://www.services.unimelb.edu.au/disability/
Coordinator:	Assoc Prof Colin Duffield
Contact:	Melbourne School of Engineering Ground Floor Old Engineering Building #173 The University of Melbourne VIC 3010 AUSTRALIA General telephone enquiries + 61 3 8344 6703 + 61 3 8344 6507 Facsimiles + 61 3 9349 2182 + 61 3 8344 7707 Email: **eng-info@unimelb.edu.au (mailto:eng-info@unimelb.edu.au)**
Subject Overview:	Commercial management of engineering projects including the role and responsibilities of corporate managers, market analysis, structuring of procurement options, development of contractual terms and conditions, the pricing of work. Estimating and tendering engineering construction works, via work breakdown structures, work method statements, risk identification and tendering principles. Contract administration and project control functions and techniques including time and money negotiations and cash flow management are also covered through the use of detailed case study material
Objectives:	At the end of this subject students should be # Able to assess the commercial viability of engineering projects # Be able to select an appropriate procurement strategy for a particular project # Capable of interpreting the scope and meaning of contract documents for the delivery of engineering projects # Able to identify and manage risks and opportunities inherent in construction projects # Able to conduct first principles cost estimating and tendering processes for a construction contractor

	# Able to administer and manage contracts based on Australian General Conditions of Contract # Able to describe dispute resolution mechanisms in the construction industry
Assessment:	One written examination not exceeding 2 hours (50%)One assignment of up to 3000 words completed progressively over the semester (45%)Participation in simulation exercise over the semester (5%)
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	# Ability to undertake problem identification, formulation, and solution # Ability to utilise a systems approach to complex problems and to design and operational performance # Ability to communicate effectively, with the engineering team and with the community at large # Ability to manage information and documentation # Understanding of professional and ethical responsibilities, and commitment to them # Ability to function effectively as an individual and in multidisciplinary and multicultural teams, as a team leader or manager as well as an effective team member # Capacity for lifelong learning and professional development
