Subject Overview:	Students will undertake a series of studio-based exercises in design demanding greater synthesis of diverse requirements and leading to increasingly resolved designs. Emphases include: three-dimensional spatial ordering, the development of an architectural language that can be responsive to different conditions, representation and composition and an examination of interior architectural form and landscape.											
Objectives:	On completion of the subject students should be able to: <ul style="list-style-type: none"># demonstrate an ability to work within statutory and programmatic requirements and to incorporate environmental principles;# understand the techniques for analysing built context and use this analysis to inform the design process;# utilize analytical and synthesizing skills (including appropriate documentation, graphic and model-making skills);# demonstrate skills commensurate with the skills required by the architectural profession of an architectural technical assistant.											

Assessment:	Assessment will be based on two major projects and a review of a portfolio of all assignments set during the semester. Projects, class tests, studio tests, exercises, and tutorial presentations to the equivalent of 10 000 words.
Prescribed Texts:	None specified
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	On completion of the subject students should have developed the following skills and capabilities: <ul style="list-style-type: none"># ability to conceptualise in three dimensions;# application of design skills to complex programs.
Notes:	Formerly available as 702-303 Architectural Design and Practice 3. Students who have completed 702-303 are not eligible to enrol in this subject.
