<b>Coordinator:</b>	Assoc Prof Rens Scheepers
<b>Contact:</b>	Email: <a href="mailto:r.scheepers@unimelb.edu.au">r.scheepers@unimelb.edu.au</a>
<b>Subject Overview:</b>	<p>As with many other forms of technology, information technologies have lifecycles ranging from initial conception, possible adoption and widespread use in industry, to eventual obsolescence. This subject will address emerging information technologies, how they evolve, and their likely future effect on industry. Topics covered will include the accuracy of past technology forecasts, how to improve them, international perspectives on emerging information technologies, standardisation, future organizational and customer trends and several technology forecasting mechanisms and considerations.</p> <p>Upon completion of this subject, students should be able to:</p> <ol style="list-style-type: none"> <li>1. understand key enabling technologies and describe how to promote technology-enabled business endeavors and initiatives;</li> <li>2. describe ways of leveraging the technology to improve intra and inter-organizational processes and enhance a firm's competitive position;</li> <li>3. describe how to take advantage of opportunities through emerging technologies, and explain the factors that influence how relevant an emerging technology will be in the long run.</li> </ol>
<b>Objectives:</b>	-
<b>Assessment:</b>	A group case study of 3000 words due after week 3 of semester (15%); an individual case study of 5000 words due mid-semester (25%); a 2 hour written examination in the examination period (60%).
<b>Prescribed Texts:</b>	There are no prescribed texts for this subject.
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>

<b>Generic Skills:</b>	Students should develop skills in literature search and analysis, critical thinking and independent learning.
