Overview:	<p>Urban Design and Planning is founded upon the social, environmental, political, aesthetic and economic importance of design in the public realm, serving the public interest. It focuses on the intersections between architecture, landscape architecture, planning and geography. Students who have a desire to learn about and engage in the design of urban features will explore two strongly related fields of environmental practice: urban design as the shaping of urban space and urban planning as the strategic and regulatory mediation of urban change.</p> <p>Careers and Further Study</p> <p>Completion of the Urban Design and Planning major will provide a basis from which to gain professional practice in the field and to apply for one of the two-year graduate programs, the Master of Urban Planning or the Master of Urban Design, or for the three-year Masters programs in Architecture or Landscape Architecture. For more information on the Masters programs, please visit the Melbourne School of Design web site: http://www.abp.unimelb.edu.au/graduate-school (http://www.abp.unimelb.edu.au/graduate-school)</p>																							
Objectives:	By the end of a three year Bachelor of Environments degree with an Urban Design and Planning major, students will have developed a strong base of design competence and knowledge across a wide range of Urban design and planning issues. Bachelor of Environments elective subjects

Students must take 37.5 points of Bachelor of Environments electives. For a complete listing of subjects please see:

<http://www.benvs.unimelb.edu.au/breadth/elective-subjects.html> (<http://www.benvs.unimelb.edu.au/breadth/elective-subjects.html>)

Bachelor of Environments breadth subjects

Bachelor of Environments students must complete between 50 and 75 credit points of subjects selected from those available as breadth for Bachelor of Environments students; with no more than 37.5 points at Level 1. For a complete listing of available subjects please click the 'Find breadth subjects' link on the **Handbook homepage (.//.)** and perform a search.

The breadth requirements for the Bachelor of Environments include the restriction of some subjects as breadth options, depending on a individual student's choice of major. Refer to the **Breadth Requirements for the Bachelor of Environments** (<http://breadth.unimelb.edu.au/breadth/info/Environments.html>) for additional information.
