697AA Graduate Certificate in University Teaching

Year and Campus:	2011 - Parkville			
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees			
Level:	Graduate/Postgraduate			
Duration & Credit Points:	50 credit points taken over 6 months part time.			
Coordinator:	Dr Kerri-Lee Harris			
Contact:	Centre for the Study of Higher Education			
Course Overview:	This course supports the development of professionalism in higher education practice. Participants engage in a range of activities designed to draw upon their own particular involvements in university teaching and learning. The course explores the principles of effective teaching and learning in a range of contexts and formats, covering topics including large and small group teaching, assessment, evaluation, effective use of information and communication technology, curriculum design and cultural diversity, It affords participants opportunities to work collaboratively with their University colleagues, and to design and undertake a small project into an aspect of higher education. Participants must be engaged in teaching in higher education and will normally take the course part-time, over two years.			
Objectives:	The course combines research-based, theoretical seminars guided by experienced higher education researchers, with practical exercises involving peer review of teaching, and negotiated projects. At the conclusion of the course, participants will have developed: # a critical understanding of the principles of effective teaching for learning in higher education; # knowledge of some of the key research relating to teaching and learning at this level, and the major debates in the area; # familiarity with the resources available to support teaching in higher education; # a student-centred perspective on the nature of teaching and learning; # an understanding of learning environments at the University of Melbourne, and of teaching approaches appropriate to those environments; # skills in large and small group teaching, and in the use of e-learning processes and practices; # an understanding of the place of assessment in higher education, and skills in using assessment design to enhance learning; # curriculum design skills; # awareness of innovative teaching procedures and confidence in experimenting with new approaches; # an understanding of how information and communication technologies can be used to			
	enhance and enrich student learning, and skills in designing programs which inc these technologies; # skills of effective communication, both oral and written, with students of different backgrounds and needs; # a readiness to reflect on their own teaching practice and to use this reflection as continuous improvement; # insight into the role of curricula in the development of students' English language
