**864AS Master of Information Systems** 

Year and Campus:	2011 - Parkville		
•			
CRICOS Code:	055846K		
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees		
Level:	Graduate/Postgraduate		
Duration & Credit Points:	100 credit points taken over 12 months full time. This course is available as full or part time.		
Coordinator:	Dr Wally SmithEmail: wsmith@unimelb.edu.au		
Contact:	Melbourne Graduate School of Science Faculty of Science The University of Melbourne Victoria 3010 Tel: + 61 3 8344 6128 Fax: +61 3 8344 3351 Web: http://graduate.science.unimelb.edu.au/ (http://graduate.science.unimelb.edu.au/)		
Course Overview:	The Master of Information Systems (MIS) 100 point program is a professional degree for those seeking an advanced career in IT management and digital business. The MIS is taught in the <a href="Department of Information Systems">Department of Information Systems</a> (http://www.dis.unimelb.edu.au/).  Combined degree options are available: <a href="Master of Business Administration/Master of Information Systems">Master of Business Administration/Master of Information Systems</a> (//CSCView?cscld=59628&view=editor) and <a href="Master of Information Systems/Postgraduate Diploma">Master of Information Systems/Postgraduate Diploma in Management</a> (//view/current/ML-ISMGT).		
Objectives:	The key objective of the MIS is to equip students with the knowledge and skills needed to manage and change business processes through information and communications technology (ICT) and information systems. The MIS is also designed to connect students with the real world of IT Management through the industry links of staff teaching in the program.  The degree covers recent developments in IT infrastructure, applications, and emerging technologies. It also covers IT strategy, IT governance, IT project and change management, achieving compliance, protecting against threats, and IT service provision. The program contains a wide range of elective subjects, allowing the student to organise their study towards particular careers in IT Management and digital business.  In addition to these essential areas of knowledge, students should also gain a broad business and real world perspective together with experience in applying business communication, interpersonal, and team skills to real situations. Critical thinking and analytical skills are honed through a mixture of advanced teaching models including case-based, experiential, and team-based approaches.		
Course Structure & Available Subjects:	Students normally complete the following four core subjects:  IS skills  ISYS90032 (615-652) Emerging Technologies and Issues  ISYS90043 (615-671) Business Applications and Architectures  IS Management  ISYS90038 (615-660) IS Strategy and Governance  ISYS90051 (615-683) Impact of Digitisation  plus four elective subjects as approved by the Department of Information Systems.  100 point MIS students will meet with the MIS Coordinator to customize the course where prior experience or study covers knowledge in the core subjects and to select electives.  The following information systems elective subjects are available in 2011:  SINF90002 (615-636) Interaction Design and Usability  SINF90004 (615-644) Data Warehousing  SINF90006 (615-670) Internet Software Development Principles  ISYS90034 (615-655) Business to Business Electronic Commerce

- ISYS90035 (615-656) Knowledge Management Systems
- ISYS90036 (615-657) Enterprise Systems
- ISYS90037 (615-659) Advanced IS Project Management
- ISYS90039 (615-661) Innovation and Entrepreneurship in IT
- ISYS90040 (615-662) Advanced IS Change Management
- ISYS90052 (615-684) Models of IS Project Management
- ISYS90055 (615-688) ICT Outsourcing Contract Management
- ISYS90068 (615-504) Service Science
- SCIE90004 (600-6160 Science in Context
- SCIE90007 (615-505) e-Science
- SCIE90009 (615-668) Critical Analysis in Science
- ISYS90069 eHealth
- ISYS90070 Information security consulting
- ISYS90031 (615-610) Research Methods in Information Systems
- ISYS90044 (615-690) Minor Research Project in IS (25 points)

Electives may also be chosen from Lower Core subjects:

- ISYS90048 (615-680) Information Technology Infrastructure
- ISYS90049 (615-681) Business Analysis Modelling and Design
- ISYS90045 (615-695) Professional IS Consulting
- ISYS90050 (615-682) IS Project and Change Management

## **Subject Options:**

Subject	Study Period Commencement:	Credit Points:
ISYS90032 Emerging Technologies and Issues	Not offered 2011	12.50
ISYS90043 Business Applications & Architectures	Not offered 2011	12.50
ISYS90038 IS Strategy and Governance	Not offered 2011	12.50
ISYS90051 Impact of Digitisation	Not offered 2011	12.50
SINF90002 Interaction Design and Usability	Not offered 2011	12.50
SINF90004 Data Warehousing	Not offered 2011	12.50
SINF90006 Internet Software Development Principles	Not offered 2011	12.50
ISYS90034 Business to Business Electronic Commerce	Not offered 2011	12.50
ISYS90035 Knowledge Management Systems	Not offered 2011	12.50
ISYS90036 Enterprise Systems	Not offered 2011	12.50
ISYS90037 Advanced IS Project Management	Not offered 2011	12.50
ISYS90039 Innovation & Enterpreneurship in IT	Not offered 2011	12.50
ISYS90040 Advanced IS Change Management	Not offered 2011	12.50
ISYS90052 Models of IS Project Management	Not offered 2011	12.50
ISYS90055 ICT Outsourcing Contract Management	Not offered 2011	12.50
ISYS90068 Service Science	Not offered 2011	12.50
SCIE90004 Science in Context	Not offered 2011	12.50
SCIE90007 E-Science	Not offered 2011	12.50
SCIE90009 Critical Analysis in Science	Not offered 2011	12.50
ISYS90069 eHealth & Biomedical Informatics Systems	Not offered 2011	12.50
ISYS90070 Information Security Consulting	Not offered 2011	12.50

	ISYS90031 Research Methods in Information Systems	Not offered 2011	12.50	
	ISYS90044 Minor Research Project in IS	Not offered 2011	25	
	ISYS90048 Information Technology Infrastructure	Not offered 2011	12.50	
	ISYS90049 Business Analysis Modeling and Design	Not offered 2011	12.50	
	ISYS90045 Professional IS Consulting	Not offered 2011	12.50	
	ISYS90050 IS Project and Change Management	Not offered 2011	12.50	
Entry Requirements:	Applicants must have:			
	• a four-year Honours degree in Information Systems with at least H3 (65%) average in the final year of study or equivalent; or			
	• an undergraduate degree in Information Systems with at least H3 (65%) average in the final year of study or equivalent and two years documented relevant work experience; or			
	an undergraduate degree in any discipline, one year documented relevant work experience and the Postgraduate Certificate in Information Systems with at least H3 (65%) average or equivalent; or			
	• an undergraduate degree in any discipline and the Postgra Systems with at least H3 (65%) average or equivalent.	aduate Diploma in Inforr	nation	
Core Participation Requirements:	The Master of Information Systems welcomes applications from students with disabilities. It is University and degree policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the degree. The Master of Information Systems requires all students to enrol in subjects where they will require: (1) the ability to comprehend complex science and technology related information; (2) the ability to clearly and independently communicate a knowledge and application of science, and technology principles and practices during assessment tasks; (3) the ability to actively and safely contribute in clinical, laboratory, and fieldwork/excursion activities. Students must possess behavioural and social attributes that enable them to participate in a complex learning environment. Students are required to take responsibility for their own participation and learning. They also contribute to the learning of other students in collaborative learning environments, demonstrating interpersonal skills and an understanding of the needs of other students. Assessment may include the outcomes of tasks completed in collaboration with other students. There may be additional inherent academic requirements for some subjects, and these requirements are listed within the description of the requirements for each of these subjects. Students who feel their disability will impact on meeting this requirement are encouraged to discuss this matter with the relevant Subject Coordinator and the Disability Liaison Unit: http://www.services.unimelb.edu.au/disability/			
Further Study:	An entry pathway to PhD is possible if students complete th	e followina elective subi	ects:	
	# ISYS90031 (615-610) Research Methods in Information	•	,	
	# ISYS90044 (615-690) Minor Research Project in IS (25	points).		
Graduate Attributes:	Graduates will have the ability to demonstrate advanced including and reflection. The degree has significant engagement and international practicing information systems professionals. On membership of the appropriate professional body, the Austrinformed by the most up-to-date evidence based research in the degree.	involvement from local a Braduating students qua alian Computer Society	and llify for , and are
