Subject Overview:	In this subject teacher candidates will study assessment and reporting linked to teaching and the classroom learning encompassing cognitive, affective, physical and aesthetic domains. Links between assessment and curriculum are examined and connected to evidence-based decision developmental frameworks. In developing and designing assessment protocols, teacher candidates will develop both objectively and subjectively scored assessment strategies. The importance and use of various approaches to gathering evidence, interpretation of frameworks and methods of record keeping and reporting will be examined and several will be practised. Both formal and informal methods of assessment and examination will be studied and teacher candidates will develop skills in evaluating forms and functions of assessment and reporting. Skills in combining assessment evidence of learning to form objectives for teaching and overall summative assessments for recording and reporting purposes will be developed.
