ENGM90007 Project Management Practices

Credit Points:	12.50		
Level:	9 (Graduate/Postgraduate)		
Dates & Locations:	This subject is not offered in 2011.		
Time Commitment:	Contact Hours: 36 hours per semester (Lectures: 2 hours per week. Tutorials: 1 hour per week) Total Time Commitment: 120 hours		
Prerequisites:	None		
Corequisites:	None		
Recommended	Knowledge gained from the following subjects will assist learning in this subject		
Background Knowledge:	Subject	Study Period Commencement:	Credit Points:
	CVEN90043 Sustainable Infrastructure Systems	Not offered 2011	12.50
	CVEN90045 Engineering Project Implementation	Not offered 2011	12.50
Non Allowed Subjects:	None		
Core Participation Requirements:	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Description, Subject Objectives, Generic Skills and Assessment Requirements of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http:// www.services.unimelb.edu.au/disability/		
Contact:	Assoc Prof Colin Duffield colinfd@unimelb.edu.au (mailto:colinfd@unimelb.edu.au)		
Subject Overview:	This subject focuses on specific systems, tools and techniques used by project managers to initiate and structure major projects. Systems appropriate for both construction projects and complex projects (e.g. IT, high technology projects) are considered Techniques considered include the use of logic maps, business cases and system based project management concepts. Details include the development of acquisition strategies, system life-cycle, boundaries, scope management and mechanisms to control of client		
	of a project. Expected value and Monte Carlo techniques are used as tools to refine project decisions based on risk evaluation		
	Project governance arrangements are considered along with resourcing requirements of a project and how this is organis considered include the selection of consultants or contractor industrial relations; occupational health and safety; meetings	n consideration of cultura ed and managed. Specil rs, communication proce s; delegation and leaders	ıl context, fic areas sses; ship
Objectives:	On successful completion of this subject students should be able to: # assist project owners to sensibly consider the feasibility of projects # develop investment logic maps # structure an acquisition strategy for either traditional projects or a complex engineering or IT project # clarify a project's scope and establish boundaries to the scope of complex projects # analyse and evaluate project risks and project decisions # develop and communicate projects in a consolidated project management plan that considers, client interface, governance, organizational structure and resources to assist in the management and control of projects to achieve targeted key performance indicators		

Assessment:	One 2-hour examination, end of semester (40%)Two 1200 word reports, due mid-semester and end of semester (40%)One 50 minute test, mid-semester (10%)One 10 minute seminar presentation, during the semester (10%)	
Prescribed Texts:	None	
Breadth Options:	This subject is not available as a breadth subject.	
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees	
Generic Skills:	$_{\#}$ Ability to undertake problem identification, formulation, and solution	
	 # Ability to utilise a systems approach to complex problems and to design and operational performance # Ability to conduct an engineering project 	
	 # Ability to communicate effectively, with the engineering team and with the community at large # Ability to manage information and documentation 	
	# Understanding of professional and ethical responsibilities, and commitment to them	
	 # Ability to function effectively as an individual and in multidisciplinary and multicultural teams, as a team leader or manager as well as an effective team member # Capacity for lifelong learning and professional development
