

B-ENG Civil Engineering stream

Year and Campus:	2012															
Coordinator:	Dr Sam Yuen stsy@unimelb.edu.au															
Contact:	<p>Melbourne School of Engineering Ground Floor, Old Engineering (Building 173) Current students: Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au) Phone: 13MELB (13 6352) +61 3 9035 3511 Prospective students: Email: eng-info@unimelb.edu.au (mailto:eng-info@unimelb.edu.au) Phone: +61 3 8344 6944</p>															
Overview:	<p>The Civil Engineering stream of the Bachelor of Engineering (for students commencing in 2008 and later years).</p> <p>See Bachelor of Engineering (B-ENG)</p>															
Objectives:	See Bachelor of Engineering (B-ENG)															
Structure & Available Subjects:	<p>Completion of 400 points of study.</p> <p>The structure of the Bachelor of Engineering degree requires completion of specific subjects as part of this stream. The majority of subjects have one or more prerequisites and therefore the sequence in which subjects are taken is very important. It is unlikely that prerequisite waivers will be granted for these engineering subjects and therefore students should take care to select subjects in one study period that satisfy prerequisites for subjects in later study periods.</p>															
Subject Options:	<p>The following subjects are required for this stream of the Bachelor of Engineering.</p> <p>First Year (normally 100 points taken in Year 1)</p> <table border="1"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>ENGR10003 Engineering Systems Design 2</td> <td>Summer Term, Semester 2</td> <td>12.50</td> </tr> <tr> <td>ENGR10004 Engineering Systems Design 1</td> <td>Semester 1, Semester 2</td> <td>12.50</td> </tr> <tr> <td>MAST10005 Calculus 1</td> <td>Semester 1, Semester 2</td> <td>12.50</td> </tr> <tr> <td>MAST10006 Calculus 2</td> <td>Semester 1, Semester 2</td> <td>12.50</td> </tr> </tbody> </table> <p>Plus</p> <ul style="list-style-type: none"> # Two breadth subjects (i.e. 25.00 credit points total) # Two science subjects (i.e. 25.00 credit points total) <p>N.B.</p> <ul style="list-style-type: none"> # Students who have completed VCE Specialist Mathematics (or equivalent) are exempt from MAST10005 Calculus 1 and should therefore enrol in MAST10006 Calculus 2 and MAST10007 Linear Algebra. # Students with a high level of achievement in mathematics may enrol in both MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2 instead of both MAST10006 Calculus 2 and MAST10007 Linear Algebra. # Science subjects could be chosen to keep options open for other streams of engineering (e.g. chemistry, informatics and physics subjects) or be chosen for disciplines not directly related to engineering. <p>Second Year (normally 100 points taken in Year 2)</p>	Subject	Study Period Commencement:	Credit Points:	ENGR10003 Engineering Systems Design 2	Summer Term, Semester 2	12.50	ENGR10004 Engineering Systems Design 1	Semester 1, Semester 2	12.50	MAST10005 Calculus 1	Semester 1, Semester 2	12.50	MAST10006 Calculus 2	Semester 1, Semester 2	12.50
Subject	Study Period Commencement:	Credit Points:														
ENGR10003 Engineering Systems Design 2	Summer Term, Semester 2	12.50														
ENGR10004 Engineering Systems Design 1	Semester 1, Semester 2	12.50														
MAST10005 Calculus 1	Semester 1, Semester 2	12.50														
MAST10006 Calculus 2	Semester 1, Semester 2	12.50														

Subject	Study Period Commencement:	Credit Points:
ENEN20002 Earth Processes for Engineering	Semester 2	12.50
ENGR20003 Engineering Materials	Semester 2	12.50
ENGR20004 Engineering Mechanics	January, Semester 1, Semester 2	12.50
MAST10007 Linear Algebra	Summer Term, Semester 1, Semester 2	12.50
MAST20029 Engineering Mathematics	Summer Term, Semester 1, Semester 2	12.50

Plus

- # Two breadth subjects (i.e. 25.00 credit points total)
- # One science or engineering elective (i.e. 12.50 credit points total)

N.B.

- # Students who have completed VCE Specialist Mathematics (or equivalent) and completed either both MAST10006 Calculus 2 and MAST10007 Linear Algebra or both MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2 in Year 1 can replace MAST10007 Linear Algebra in the table above with a science elective.
- # A science elective is any subject available as science credit in the Bachelor of Science course (B-SCI). Refer to **Science-credited subjects - new generation B-SCI and B-ENG** ([././view/current/%21B-SCI-SPC%2B1021](#)) for a full list of subjects. Science electives may have prerequisites.
- # An engineering elective is any subject offered by the Melbourne School of Engineering and requires the approval of the stream coordinator.

Third Year (normally 100 points taken in Year 3)

Subject	Study Period Commencement:	Credit Points:
CVEN30008 Risk Analysis	Semester 1	12.50
CVEN30009 Structural Theory and Design	Semester 2	12.50
CVEN30010 Systems Modelling and Design	Semester 2	12.50
CVEN90043 Sustainable Infrastructure Systems	Semester 1	12.50
CVEN90044 Engineering Site Characterisation	Semester 1	12.50
CVEN90045 Engineering Project Implementation	Semester 2	12.50
CVEN90048 Transport Systems	Semester 2	12.50
ENGR30001 Fluid Mechanics & Thermodynamics	Semester 1, Semester 2	12.50

Fourth Year (normally 100 points taken in Year 4)

Subject	Study Period Commencement:	Credit Points:
CVEN90049 Structural Theory and Design 2	Semester 1	12.50
CVEN90050 Geotechnical Engineering	Semester 1	12.50
CVEN90051 Civil Hydraulics	Semester 2	12.50
CVEN90052 Integrated Design	Year Long	25

Plus Civil Engineering electives selected from:

	Subject	Study Period Commencement:	Credit Points:
	CVEN90024 High Rise Structures	Semester 1	12.50
	ENGM90007 Project Management Practices	Semester 1	12.50
	ENEN90029 Water and Waste Water Management	Semester 1	12.50
	ENEN90006 Solid Wastes to Sustainable Resources	Semester 1	12.50
	CVEN90027 Geotechnical Applications	Semester 2	12.50
	CVEN90035 Structural Theory and Design 3	Semester 2	12.50
	ENEN90005 Environmental Management ISO 14000	Semester 2	12.50
	ENEN90011 Energy Efficiency Technology	Semester 2	12.50
	ENGM90006 Engineering Contracts and Procurement	Semester 2	12.50
	CVEN90016 Concrete Design and Technology	Semester 2	12.50
	CVEN90056 IE Research Project 3	Semester 1, Semester 2	12.50
Related Course(s):	Bachelor of Engineering
