Subject Overview:	The Thesis Workshop builds on knowledge and skills developed in the advanced theory units. It includes a series of seminars in which students further develop their selected research topic and present chapters of their thesis. The objectives of the subject are: <ul style="list-style-type: none"><li># To provide students with exposure to the work of other PhD candidates at various stages of their research;</li><li># To provide students with guidance on the technology available for the presentation of research results;</li><li># To give students a goal for completion of a stage or chapter of their thesis by requiring them to present their own research results to a seminar group made up of their peers and academic staff;</li><li># To provide students with feedback on their work by their peers.</li></ul>								
Objectives:	On successful completion of this subject, students should be able to: <ul style="list-style-type: none"><li># Identify and demonstrate the skills necessary to successfully complete a PhD thesis;</li><li># Critically analyse and review the research of other academics and peers;</li><li># Provide critical feedback to their peers;</li><li># Apply relevant knowledge and skills in order to motivate research, build a literature review, develop a hypothesis and develop a PhD proposal.</li></ul>								
Assessment:	Seminar presentations and participation. The subject is assessed on a pass/fail basis.								
Prescribed Texts:	Selected readings, Department of Accounting and Business Information Systems.								

<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>
<b>Generic Skills:</b>	<p>On successful completion of this subject, students should have improved the following generic skills:</p> <ul style="list-style-type: none"><li># Problem solving;</li><li># Collaborative learning and team work;</li><li># Critical thinking, both in regard to existing research and the students own work;</li><li># Synthesis of data and research information;</li><li># Evaluation of existing literature relevant to a topic/issue;</li><li># Oral and written communication;</li><li># Accessing data from a range of sources;</li><li># Listen to others with tolerance.</li></ul>
