

COMP40004 Computer Science Research Project 12.5

Credit Points:	12.50
Level:	4 (Undergraduate)
Dates & Locations:	2012, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus. Semester 2, Parkville - Taught on campus.
Time Commitment:	Contact Hours: Students are required to attend regular meetings with their supervisor. Total Time Commitment: Approximately 120 hours
Prerequisites:	Written permission from the coordinator.
Corequisites:	None
Recommended Background Knowledge:	Study at the third-year level in at least four of the following areas: # Artificial intelligence, # Computer design, # Database systems, # Graphics, interactive system design, # Networks and communications, # Operating systems, programming languages, # Software engineering, and theory of computation.
Non Allowed Subjects:	None
Core Participation Requirements:	For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this subject are articulated in the Subject Overview, Objectives, Assessment and Generic Skills sections of this entry. It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and the Disability Liaison Unit: http://www.services.unimelb.edu.au/disability/
Coordinator:	Dr Rui Zhang
Contact:	Dr Aaron Harwood email: aharwood@unimelb.edu.au (mailto:tbaldwin@unimelb.edu.au)
Subject Overview:	Students undertake a research investigation under the supervision of a member of the academic staff and in the context of one of the departmental research groups. Students must have approval of subject coordinator.
Objectives:	The objective of this subject is for students to gain experience in computer science research.
Assessment:	A written report of approximately 20,000 words (90%) And a 20-30 minute oral presentation (10%)
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.

Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of this subject students should:</p> <ul style="list-style-type: none"># Have intellectual curiosity and creativity, including understanding of the philosophical and methodological bases of research active# Have gained experience in computer science research# Be able to function effectively as an individual and in multi-disciplinary and multi-cultural teams, with the capacity to be a leader or manager as well as an effective team member# Be able to undertake problem identification, formulation and solution# Have a capacity for independent critical thought, rational inquiry and self-directed learning; and# Have a profound respect for truth and intellectual integrity, and for the ethics of scholarship
Notes:	This subject is available only to students enrolled in the BSc(Honours) and BCS(Honours) degrees. Students enrol in the Computer Science Research Project over one, two or three semesters, depending upon their individual course plan. The subject will be weighted at 12.5.
Related Course(s):	Bachelor of Computer Science (Honours)
