Coordinator:	Dr Tony Weatherley
Contact:	Melbourne School of Land & Environment Student Centre Ground Floor, Land & Food Resources (building 142) <i>Enquiries</i> Phone: 13 MELB (13 6352) Email: 13MELB@unimelb.edu.au (mailto:13MELB@unimelb.edu.au)
Subject Overview:	Modernization has led to development pressures that have increasingly disrupted natural systems leading to widespread concerns about the long-term viability of important environmental services, including those critical to food security worldwide. Case studies in topical areas of environment and food production systems are used to explore interrelationships among social, economic, and environmental factors basic to sustainable development. The case studies include: Population demographics; Genetically modified foods and food security; Biodiversity and global trade; Global warming and climate change; Water quality and quantity; and Global responsibility. The student will participate in global classroom discussions and debates with students from Sweden, Costa Rica, Honduras, South Africa and the USA. This interaction is facilitated by local classroom discussions, postings to discussion forums and live interactive videoconferences. The subject challenges the student to develop a clear understanding of sustainability from both a regional and a global context.
Objectives:	On completion of this subject, students should be able to: <ul style="list-style-type: none"> # Recognise that regional and global issues influence a stakeholder's response to sustainable production systems; # Appreciate the perspectives of different stakeholders and their role in the solution to problems associated with sustainable production systems; # Understand and appreciate cultural diversity; # Participate effectively in an international student group to identify solutions to dilemmas associated with the environment and production systems; # Communicate effectively via videoconference, chat and discussion software and;

	# Critically analyse discourse associated with sustainable production systems.
Assessment:	The assessment tasks are a group presentation (10%), a 1,000 word reflection paper on each case study (60%)An analysis of discussion boards (20%)Videoconference presentation (10%)
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of this subject, students should be able to:</p> <ul style="list-style-type: none"> # Utilise appropriate communication technology; # Exercise creativity and innovation, through the application of skills and knowledge; # Integrate information across a broad range of disciplines to solve problems in applied situations; # Appreciate social and cultural diversity from a regional to a global context; # Participate effectively as a member of a team and; # Plan and manage small projects effectively.
