Contact:	School of Melbourne Custom Programs Level 3, 442 Auburn Rd Hawthorn VIC 3122 Phone: 03 9810 3245 Email: clinical.research@commercial.unimelb.edu.au (mailto:clinical.research@commercial.unimelb.edu.au)								
Course Overview:	Clinical research in oncology is an enormous field that integrates the efforts of a broad multi-disciplinary team; including medical, nursing, allied health, laboratory and other professionals. The Specialist Certificate in Clinical Research (Oncology) has been designed to bring together this multi-disciplinary group to give them a better understanding of all types of research conducted in oncology as well as provide an understanding of the essential components and features of successful research activities and research careers.								
Objectives:	Students will gain an understanding of the breath of research in oncology and the range of career opportunities. They will be presented with some of the ethical and legal considerations relevant to clinical research in oncology. They will learn of the many different outcomes assessed by oncology clinical trials, including how and why these might differ from other disciplines. Students will gain an appreciation of how to develop a research proposal/study protocol and will develop skills in critically appraising presentations and publications concerning oncology research. Students will also be exposed to many of the current active areas of research in clinical oncology research.								
Course Structure & Available Subjects:	To satisfy the requirements of the Specialist Certificate in Clinical Research (Oncology), students are required to complete one, 25 point subject.								
Subject Options:	<table><tr><th>Subject</th><th>Study Period Commencement:</th><th>Credit Points:</th></tr><tr><td>CLRS90020 Clinical Research in Oncology</td><td>March</td><td>25</td></tr></table>			Subject	Study Period Commencement:	Credit Points:	CLRS90020 Clinical Research in Oncology	March	25
Subject	Study Period Commencement:	Credit Points:							
CLRS90020 Clinical Research in Oncology	March	25
