## VETS10011 Vet.Anatomy Seminar

Credit Points:	5		
Level:	1 (Undergraduate)		
Dates & Locations:	2012, Parkville This subject commences in the following study period/s: Semester 1, Parkville - Taught on campus. Semester 2, Parkville - Taught on campus.		
Time Commitment:	Contact Hours: N/A Total Time Commitment: This subject is taken full-time over one year.		
Prerequisites:	In 2011, the Bachelor of Animal Science will normally be available only to students who have complete the second year of the BVSc and who have not commenced the third year.		
Corequisites:	Subject St	tudy Period Commencement:	Credit Points:
	VETS10010 Vet.Anatomy Project S	Semester 1, Semester 2	45
Recommended Background Knowledge:	Students should have a solid understanding of at least the first two years of the BVSc course and an interest in their chosen research topic.		
Non Allowed Subjects:	None		
Core Participation Requirements:	It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. In this subject, students may be required to actively and safely contribute to laboratory activities, practical placements and clinical and paraclinical work with animals. Students who feel their disability will impact on meeting this requirement are encouraged to discuss this matter with the Subject Coordinator and the Disability Liaison Unit.

	* plan, design and execute a small scientific investigation in that particular discipline;
	* have developed competence with techniques and instrumentation used for scientific investigations in that discipline area;
	* critically appraise and interpret scientific data and present results in both written and verbal forms;
	* prepare the results of an investigation in a format suitable for publication in a refereed scientific journal or in the format of a thesis; and
	* to participate as part of a research team to undertake comprehensive investigations under general supervision.
Notes:	The Bachelor of Veterinary Science with the Bachelor of Animal Science is considered as a combined course for the purpose of student benefits.
