

Plant Science

Year and Campus:	2013																													
Coordinator:	Dr Andrew Drinnan School of Botany																													
Contact:	Email: and@unimelb.edu.au (mailto:and@unimelb.edu.au)																													
Overview:	A Plant Science major will provide the springboard for students in entering careers or research in all fields requiring a solid understanding of plants and their environments. Graduates will develop a comprehensive integrated knowledge of the biology of plants as well as both field and laboratory skills. This major will include knowledge from all aspects of plant biology from cells to ecosystems, by enabling students to complete an integrated subject on plant evolution combination with a suite of specialist subjects in specific subdiscipline fields.																													
Objectives:	The objective of the plant science major is to contribute to the academic preparation of graduates who embody the University of Melbourne graduate attributes, as well as additional attributes more specific to the Bachelor of Science.																													
Structure & Available Subjects:	Completion of 50 points of study at Level 3.
