<b>Subject Overview:</b>	Students will be assigned in small groups (3-4/group) to a Practicum Organisation. Working in teams, they will undertake a structured business planning or business development exercise. This will be supported by seminar work equipping the students with knowledge of approaches, tools and techniques for completing the task and an understanding of report formats appropriate for conveying the results. During the practicum, in-depth work will be undertaken in identifying the scope, opportunities, constraints and recommendations of the exercise. Students will learn to work with unstructured and incomplete information in real business settings, to develop research and networks to support their enquiry, to work successfully in teams, to present their findings and seek and received constructive feedback in a range of settings. Students will also be encouraged to plan, reflect and modify their approaches to improve the outcomes of their efforts in managing the business project.
<b>Learning Outcomes:</b>	<p>On successful completion of this subject, students should be able to:</p> <ul style="list-style-type: none"> <li># Apply theory and practice of relevant commerce disciplines to address real-world business issues</li> <li># Research, analyse, evaluate and propose practical business solutions within the bounds of the exercise</li> </ul>
