Subject Overview:	This is a studio-based capstone subject that bridges design and ecological science. Studio projects will address ecological design as fundamental to modern landscape architectural practice. The studio integrates teaching and learning activities through a digital design platform that enhances skills and prepares students for entry into the postgraduate professional degree.																	
Learning Outcomes:	The objectives of this subject are to: # analyse a site and apply ecological theories to practice; # develop a palette of approaches to ecological design;																	

	# design at the scales of the masterplan to detail design. # design experimentally through a digital platform
Assessment:	Design project one (equivalent to 2000 words): due in week 4 and worth 20% Design project two (equivalent to 6000 words): due in week 12 and worth 80%
