ABPL90146 Architectural Conservation in East Asia

| Credit Points: | 12.5 |
| Level:         | 9 (Graduate/Postgraduate) |
| Dates & Locations: | This subject is not offered in 2015. |
| Time Commitment: | Contact Hours: 1 x 2-hour lecture per week; 1 x 1-hour tutorial per week Total Time Commitment: 170 hours |
| Prerequisites: | Admission into a course at the Melbourne School of Design. |
| Corequisites: | None |
| Recommended Background Knowledge: | None |
| Non Allowed Subjects: | None |

Core Participation Requirements:

For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry. It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability

Subject Overview:

This subject offers a comparative approach to architectural conservation in East Asia from an international perspective. The subject emphasises the mutually dependent relationships between conservation of historical buildings and preservation of traditional techniques and knowledge. Discussions will take place in eight investigative areas:

- Venice Charter, Burra Charter and Laws/principles for the Protection of Cultural Properties in East Asia;
- cultural traditions and values;
- administration and legislation;
- education and training;
- deterioration in material and structure;
- materials and techniques in preservation;
- restoration and authenticity;
- management of conservation projects.

Learning Outcomes:

On completion of this subject, students should be able to:

- understand the principles and practices of conservation;
- undertake analysis of a specific historical condition;
- understand conservation legislation, building materials, structures, techniques, authenticity of restoration and management of conservation/preservation projects.

Assessment:

Class-paper: Documentation of a specific historic building, due week 6, 40%, 2000 words. Essay: Conservation proposal, due during exam period, 60%, 3000 words.
