Subject Overview:	<p>During emergency situations, effective public communications have been shown to be of crucial importance. Gaining public trust and co-operation during any emergency is a function of ensuring that the right messages are targeted at the appropriate times to the right audiences using the most appropriate media channels. Specifically, in animal disease emergencies, public co-operation is required to maximise good biosecurity and gain maximum compliance with disease management efforts.</p> <p>This subject will use lecture notes and study materials to educate students on the basics of communications planning, including determining communication objectives, identifying target audiences, messages and media. Practical sessions will expose them to media interview techniques and the drafting of media releases.</p>								
Learning Outcomes:	<p>On completion of this subject, students will have gained:</p> <ul style="list-style-type: none"># a basic understanding of the process of drawing up a communication plan;# experience in working with the media, including drafting of press releases and conducting media interviews; and# an appreciation of the need to communicate effectively during an animal disease emergency.								
Assessment:	Student progress is monitored through class exercises and case studies. Two assessment tests will be conducted (weeks 4 and 6). The final examination is a two-hour written and online								

	exam held in weeks 9 and 10. Students will be required to arrange an appropriate venue (e.g. a nearby university) to sit this assessment under supervised examination conditions. The assessment components are as follows: Individual assignment due during the study period (10%) Group assignment due during the study period (15%) Weekly online group activity participation (15%) One 2-hour written examination held at the end of the study period (60%)
Prescribed Texts:	Students will use a reading list of scientific articles from the current literature, which will be provided on-line.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	On completion of this subject, students should have developed their: <ul style="list-style-type: none"> # ability to identify communication needs; and # ability to manage communications effectively.
Notes:	Reliable internet access with at least a medium speed connection and a personal computer are essential for undertaking this online program. The content is accessed through your web browser. Microsoft Office™ and Adobe Acrobat Reader or equivalent software packages are necessary for assessment tasks, assignments and some class exercises.
