Subject Overview:	<p>This subject aims to build teacher candidates' capacities for teaching in Primary Humanities. Teacher candidates will be introduced to the Humanities as a broad, complex and dynamic field concerned with people as social beings who interact with one another and with natural and social environments through time. They will explore social and environmental issues that school students need to understand to participate in the world as informed citizens in socially just and sustainable ways. Through the experience of an excursion to a site linked to school students' Humanities learning, teacher candidates will further consider how the Humanities can be linked with other curriculum areas in contexts outside the school classroom.</p> <p>Emphasis will also be placed on effective teaching and learning practices in the Humanities, with a particular emphasis on inquiry, problem solving and decision making strategies. Teacher candidates will apply their understanding of these processes in a critical inquiry project on an issue of interest for Humanities teaching.</p>
Learning Outcomes:	<p>On completion of this subject teacher candidates will be able to:</p> <ul style="list-style-type: none"> # become familiar with some of the contemporary themes and debates within <i>Humanities</i> as they relate to the primary school setting; # demonstrate knowledge of the <i>Humanities</i> learning area in the VELS and personally evaluate this; # be able to identify the ways in which <i>Humanities</i> can be integrated across the curriculum in primary schools; # begin to critically analyse their own values, attitudes and beliefs especially about issues of social and ecological concern; # demonstrate the knowledge, attitudes and behaviours they intend to teach in the <i>Humanities</i>;

	# have applied a critical inquiry to classroom practice.
