

## FRST90033 Farm Trees & Agroforestry

<b>Credit Points:</b>	12.5
<b>Level:</b>	9 (Graduate/Postgraduate)
<b>Dates &amp; Locations:</b>	2016, Creswick This subject commences in the following study period/s: October, Creswick - Taught on campus. Please note that this subject has a pre-teaching period, where you will be required to undertake reading material prior to the intensive.
<b>Time Commitment:</b>	Contact Hours: 24 hours lectures and 24 hours practical work, delivered in a two-week intensive teaching block. Total Time Commitment: 170 hours
<b>Prerequisites:</b>	None
<b>Corequisites:</b>	None
<b>Recommended Background Knowledge:</b>	None
<b>Non Allowed Subjects:</b>	None
<b>Core Participation Requirements:</b>	<p>&lt;p&gt;For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.&lt;/p&gt; <p>&lt;p&gt;It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: &lt;a href="http://services.unimelb.edu.au/disability"&gt;http://services.unimelb.edu.au/disability&lt;/a&gt;&lt;/p&gt;</p> </p>
<b>Coordinator:</b>	Mr Rowan Reid
<b>Contact:</b>	<a href="mailto:rowan.reid@unimelb.edu.au">rowan.reid@unimelb.edu.au</a> (mailto:rowan.reid@unimelb.edu.au)
<b>Subject Overview:</b>	This subject covers the principles and practices of integrating trees into the rural agricultural landscape for both conservation and profit. The farming community require trees and shrubs for shade and shelter, soil conservation, salinity control and aesthetics. Farmers can also produce commercial tree products such as timber, fuel, fodder, essential oils and food. Because farmers manage the majority of the Australian landscape governments, community groups and industry are increasingly working in partnership with them to grow trees for environmental services including carbon sequestration, biodiversity and downstream water quality.
<b>Learning Outcomes:</b>	<p>By the end of the subject students should:</p> <ul style="list-style-type: none"> <li># Have a working knowledge of farm planning and agroforestry diagnosis and design as tools for developing farm re-vegetation plans;</li> <li># Have an understanding of the role of trees in providing for landowner, community and industry needs and aspirations;</li> <li># Be able to develop technical design criteria for effective re-vegetation for resource conservation, agricultural production and commercial purposes;</li> <li># Be able to measure and monitor the growth, productivity and environmental impact of forests on farms;</li> <li># Be familiar with extension and development approaches for promotion of re-vegetation and forest management on farms;</li> <li># Have an understanding of multipurpose tree research methodologies and economic evaluation; and,</li> </ul>

	# Recognise the potential for trees on farms, both in Australia and overseas, to contribute to international development goals such as poverty elimination, human health, environmental protection and mitigating climate change.
<b>Assessment:</b>	Exam (take home test - equivalent to 2000 words) 40% - due one month after the completion of the subject. Communication exercise (1000 words) 20% - due one month after the completion of the subject. Assignment (2000 words) 40% - due 2 months after the completion of the subject.
<b>Prescribed Texts:</b>	None
<b>Recommended Texts:</b>	Agroforestry for Natural Resource Management, Nuberg, George and Reid 2009. CSIRO Publishing
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
