

## 306-691 Information Technology Forensics

<b>Credit Points:</b>	12.500
<b>Level:</b>	Graduate/Postgraduate
<b>Dates &amp; Locations:</b>	2008, This subject commences in the following study period/s: Semester 2, - Taught on campus.
<b>Time Commitment:</b>	Contact Hours: A total of 36 hours of seminars (Semester 2). Total Time Commitment: Not available
<b>Prerequisites:</b>	Completion of an undergraduate degree in accounting, finance, law or another relevant discipline or as approved by the Head of Department.
<b>Corequisites:</b>	None
<b>Recommended Background Knowledge:</b>	None
<b>Non Allowed Subjects:</b>	None
<b>Core Participation Requirements:</b>	<p>&lt;p&gt;For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.&lt;/p&gt;         &lt;p&gt;It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: &lt;a href="http://services.unimelb.edu.au/disability"&gt;http://services.unimelb.edu.au/disability&lt;/a&gt;&lt;/p&gt;</p>
<b>Subject Overview:</b>	In today's world law enforcement is increasingly exposed to evidence embedded in accounting and business information systems. Consequently, there is a greater need for practitioners to acquire specialist knowledge and skills to effectively deal with complex computer technology in investigations. This subject aims to impart detailed knowledge of information technology as well as a thorough understanding of the rigorous requirements of obtaining evidence that will be acceptable in legal. The subject covers the basics of technology, networking, security, the law of evidence, information and communication forensics technology and intrusion forensics as well as the manner in which digital evidence can be identified, preserved, analysed and presented to be acceptable in legal proceedings in Australia.
<b>Assessment:</b>	A 2-hour end-of-semester examination (60%), assignments equivalent to not more than 3000 words (30%) and class participation (10%).
<b>Prescribed Texts:</b>	None
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
<b>Fees Information:</b>	Subject EFTSL, Level, Discipline & Census Date, <a href="http://enrolment.unimelb.edu.au/fees">http://enrolment.unimelb.edu.au/fees</a>
<b>Generic Skills:</b>	<p>On successful completion of this subject, students should be able to:</p> <ul style="list-style-type: none"> <li># Understand the basic workings of information technologies used in the modern business environment, including networking and security;</li> <li># Identify the key aspects of information technology and intrusion forensics when investigating a modern information technology environment;</li> <li># Apply knowledge of intrusion forensics to obtain information which is consistent with the types of evidence being sought;</li> <li># Through the analysis of case studies, demonstrate a high level of understanding of the key tenets of information technology forensics;</li> <li># Describe the various types of computer fraud and detail processes and techniques which may be used to identify potentially fraudulent patterns in data.</li> </ul>

	<p>On successful completion of this subject, students should have improved the following generic skills:</p> <ul style="list-style-type: none"><li># The ability to match the information with types of evidence sought;</li><li># Critical thinking skills;</li><li># Oral and written communication skills.</li></ul>
