<b>Subject Overview:</b>	<p>This subject will provide the general conceptual framework for understanding learning, teaching and curriculum. It will analyse the knowledge enhancement process from a range of evidence-based, theoretical and socio-cultural perspectives. Developmental trends in knowledge acquisition and the processes that facilitate it will be identified and evaluated. These include cognitive transformation, self-regulation, motivation and knowledge storage and retrieval and include physical, social, emotional and cognitive aspects.</p> <p>Pedagogical approaches and conceptualisations of curriculum for fostering knowledge enhancement and effective learning will be developed within an integrated framework. Consistency of approach across pedagogy, curriculum and assessment will be stressed. The strategic role of the teacher in optimising student learning and managing the classroom climate and building relationships will be investigated. This will include strategies and approaches for activating, evaluating and monitoring learning in ways that are developmentally and contextually relevant and that build on the diverse backgrounds and experiences of students and the learning community.</p> <p>There will be strong emphasis on links with schools and critical reflection as a paradigm for teacher self-evaluation and professional learning.</p>
<b>Assessment:</b>	There are 2 assessment tasks: An examination (2 hours) due end of semester (40%) Team task (2400 words) due as scheduled during the semester (60%)
