<b>Subject Overview:</b>	This subject provides a conceptual overview of theories, issues and recent practice in evaluation. An inductive/case study approach is used in which recent evaluation practice is analysed using frameworks developed by the lecturers. Topics covered include: conflicting views on the nature and purpose of evaluation; alternative purposes (summative, formative, illuminative); forms and approaches adopted by external and internal evaluators; evaluation and performance auditing; responsive evaluation; links between evaluation, decision-making and action; planning evaluations; an introduction to various evaluation techniques in data management; reporting evaluation findings; evaluation ethics and standards; and a critical appraisal of selected Australian evaluation studies.
<b>Assessment:</b>	Planning of an evaluation brief, or the design of an evaluation, or a critical review of a completed evaluation, or the conduct of a small-scale evaluation, preferably within a real setting (6,000 words) (100 per cent).
