

655-804 Rehabilitation - Partially Sighted B

Credit Points:	25.000
Level:	Graduate/Postgraduate
Dates & Locations:	2008, This subject commences in the following study period/s: Semester 1, - Taught on campus. Semester 2, - Taught on campus. Distance learning.
Time Commitment:	Contact Hours: This subject is available by distance learning in both semester 1 and 2. Completion of Twelve (12) days of clinical work (normally one day per week) is also required. Total Time Commitment: Not available
Prerequisites:	Candidates must have had at least six (6) months full-time experience in general optometric practice and have passed 655-803 Rehabilitation of the Partially Sighted A before undertaking this subject.
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	It is University policy to take all reasonable steps to minimise the impact of disability upon academic study and reasonable steps will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact upon their active and safe participation in a subject are encouraged to discuss this with the relevant subject coordinator and the Disability Liaison Unit.
Coordinator:	Ms Anthea Cochrane
Subject Overview:	This subject builds on the knowledge gained in the didactic subject 655-803 Rehabilitation of the Partially Sighted A) and requires the completions of twelve (12) full days of clinical work in a low vision clinic. The clinical work must be undertaken at an approved accredited site, and students should contact the Subject Coordinator to discuss arrangements for clinical placement prior to enrolling in this subject.
Assessment:	Three 2,000 word clinical case reports (30%); a 30-minute oral examination (20%) and a 1-hour clinical examination (50%) in the examination period. Hurdle requirement: students must complete and submit a record of activities that summarise each patient they have managed during their clinical placement.
Prescribed Texts:	Jackson J and Wolffsohn J. Low Vision Manual. Butterworth-Heinemann 2006. Students will be provided with a comprehensive study guide which will include key journal articles and a list of prescribed reading.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
