

702-889 Structures and Construction 3A (PG)

Credit Points:	12.500
Level:	Graduate/Postgraduate
Dates & Locations:	2008, This subject commences in the following study period/s: Semester 1, - Taught on campus.
Time Commitment:	Total Time Commitment: Not available
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>
Coordinator:	Mr Peter Ashford
Subject Overview:	This subject is an extension of the structural behaviour, design and construction detailing covered in Construction Technology 2A and Construction Technology 2B/Structural Systems. The structural design concepts are extended and related to the varying construction techniques required. More advanced aspects of design detailing, documentation and construction methods for the following: precast concrete building systems including tilt slab construction; basements and site retention; industrial pavements; steel portal frames and steel frame systems.
Assessment:	One three-hour examination (70%). Written and drawn assignments equivalent to not more than 2000 words (30%). A minimum grade of 40% must be achieved in the examination in order to pass the subject.
Prescribed Texts:	None
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of the subject students should be able to:</p> <ul style="list-style-type: none"> # Link structural design concepts and relate these to current construction practices. # Interpret structural drawings and be conversant with engineering terminology. <p>At completion of this subject students should have developed the following skills and capacities:</p> <ul style="list-style-type: none"> # Evaluate concrete construction systems and technologies. # Communicate construction solutions by means of sketches and drawings.
Related Course(s):	Graduate Diploma in Building Surveying
