Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p>
Coordinator:	TBC
Subject Overview:	<p>This studio integrates cultural and environmental studies through advanced design investigations of issues by individual students or teams, including the dynamics of sustainability and time. Issues are selected by staff and students and explored through the medium of a major site. There is an emphasis on advanced critical analysis of issues including theories and debates about modes of representation, landscape ecology and aesthetics, landscape architecture as a profession and landscape change. Students are expected to demonstrate highly developed and professional analytical, conceptual and communication skills (oral, written and graphic) along with a capacity to position site-based design responses and detail design resolution within the framework of broader landscape and urban planning and design strategies.</p> <p>This subject aims to develop analytical, conceptual and communication skills (oral, written and graphic) in landscape design to a advanced level and develop the capacity to relate critical analysis of contemporary theories and practices in landscape architecture to site based design decisions.</p>
Assessment:	Progressive project work equivalent to 10,000 words. A 1,500 word assignment due in week 4 (20%); a 1,000 word assignment due in week 6 (10%) and a 7,500 word assignment due at the end of semester (70%).
Prescribed Texts:	Corner, J. (ed) 1999. Recovering Landscape: Essays in contemporary landscape architecture. Princeton Architectural Press, New York.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<ul style="list-style-type: none"> # an understanding of ethical responses to issues # identification of emergent trends in practice # written, verbal and graphic communication skills # critical thinking and analysis # creative response to complex problems
