<b>Course Overview:</b>	<p>The Faculty of Architecture, Building and Planning offers a range of generic Planning and Design courses at Graduate Diploma, Postgraduate Diploma and Masters level (both by coursework and research).</p> <p>The purpose of these courses is to allow students to create an individual course of study by selecting subjects, with the approval of the Planning and Design Course Coordinator, from across the disciplines of the Faculty.</p> <p>The flexibility these courses offer is of great benefit to students who do not wish to specialise in one particular area, who are not yet certain where their interest and career aspirations lie, or for those with an existing qualification in the disciplines represented in the Faculty (or those related) who wish to enhance their qualifications through advanced studies in areas of their choice.</p> <p>A generic Master of Planning and Design (by Thesis) is available for suitably qualified applicants who wish to undertake research in one of the disciplines represented in the Faculty, but who dont meet the requirements for a specialist degree.</p>																				
<b>Objectives:</b>	<p>The course aims to develop skills in the discipline areas offered by the Faculty. Applicants may pursue a prescribed course of study to:</p> <ul style="list-style-type: none"> <li># enhance their existing qualifications;</li> <li># assist in a shift within the disciplines represented in the Faculty; and/or</li> <li># lead to further academic studies.</li> </ul>																				
<b>Course Structure &amp; Available Subjects:</b>	<p>The Postgraduate Diploma in Planning and Design consists of 100 points of study. Students select from Level 8 (graduate/postgraduate diploma) subjects offered by the Faculty in consultation with the course coordinator (not all subjects are offered every year and some subjects have prerequisites). Students may also select from Level 6 (masters) subjects with the approval of the course coordinator. Some sample subjects from across the Faculty's disciplines are listed below.</p>
