Coordinator:	Dr Roland Hodler
Subject Overview:	This subject provides an overview of the field of political economics. Political economics extends the scope of standard economic analysis by assuming that individuals follow their own agenda and maximize their own utility not only in the economic, but also in the political sphere. The following broad areas will be covered: Determinants of institutional quality and its effects on economic performance; models of political competition and (re-)elections; various (so-called) political and institutional failures, including corruption and rent seeking, and delays in welfare-increasing reforms.
Objectives:	.
Assessment:	A 2-hour end-of-semester examination (70%) and a class assignment totalling approximately 3000 words (30%).
Prescribed Texts:	Journal articles and the textbook Persson, T., and G. Tabellini, 2000, Political Economics: Explaining Economic Policy, MIT Press
Breadth Options:	This subject is not available as a breadth subject.
