

365-AM Bachelor of Engineering(Mechanical & Manufacturing) and Bachelor of Laws

Year and Campus:	2009
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Level:	Undergraduate
Duration & Credit Points:	
Contact:	<p>Engineering Student Centre Ground Floor, Old Engineering Building The University of Melbourne Victoria 3010 AUSTRALIA Tel: +61 3 8344 6703 Fax: +61 3 9349 2182 Email http://eng-unimelb.custhelp.com (Engineering%20Student%20Centre%20%20Ground%20Floor,%20Old%20Engineering%20Building%20The%20University%20of%20Melbourne%20Victoria%203010%20AUSTRALIA%20%20Tel:%20+61%203%208344%206703%20Fax:%20+61%203%209349%202182%20%20Email%20http://eng-unimelb.custhelp.com)</p>
Course Overview:	<p>The department was first established after the Second World War, although the course in mechanical engineering began in 1907 as a Faculty stream. An industrial engineering degree was added in the late 1950s. In 1988 an extensive review of the curriculum led to the undergraduate courses being restructured into a new, single degree course in mechanical and manufacturing engineering with students having the option to choose specialisations in their last year. A 1995 review of the department by a team from the US and UK ranked its research and teaching at the highest international standards. In 1996, the five-year combined degree in mechatronics commenced. Mechanical and manufacturing engineering applies human and material resources to the design, construction, operation and maintenance of machines (supported increasingly by sophisticated computer technology) to move people, goods and materials; generate energy; produce goods and services; and control pollution and dispose of wastes. It interacts with all other branches of engineering including the medical sciences.</p> <p>The combined degree of Bachelor of Engineering (Mechanical & Manufacturing)/Bachelor of Laws requires a total of 600 points over six years. Students are required to complete 300 points of Engineering subjects and 300 points of Law subjects.</p> <p>First-year students acquire a flexible, broad scientific training in mathematics, computing and physics and an introduction to engineering.</p> <p>Second-year students continue with mathematics and are introduced to engineering design plus basic mechanical engineering sciences (thermodynamics, fluid mechanics, mechanics and machine dynamics), materials and electro-mechanical system modelling.</p> <p>Third year students continue engineering science, engineering design, manufacturing studies and control systems.</p> <p>Fourth year includes a major project and electives in advanced engineering; in manufacturing, bioengineering, applied mechanics, fluids, energy, mechatronics and management. Students planning to enter industry directly after graduating can choose how best to prepare for their careers, bearing in mind that many design and research engineers move into management. Many students participate in industry challenges such as the Formula SAE-A competition, or other build and demonstrate projects that are world competitive.</p> <p>In laboratory, research and design work students have access to specialised facilities for materials testing, wind tunnels, engine test cells and a heavy engineering workshop for the manufacture of testing facilities and experimental equipment.</p> <p>Engineering design, which draws on the Faculty's extensive computer facilities and computational mechanics, is now established as an area of study and research in conjunction with computer science.</p> <p>Graduate research programs are available in aspects of mechanical, mechatronics, manufacturing and bioengineering. The department is internationally regarded in fluid mechanics, advanced automotive engineering technology, machine dynamics, mechatronics and biomedical engineering.</p>

Objectives:	-																																																
Course Structure & Available Subjects:	<p>The recommended or standard course structures are listed below. When setting the timetable every effort will be made to avoid clashes between the times of classes associated with these sets of subjects. Students should be aware however, that if it proves to be impossible to achieve a timetable without clashes in these sets of subjects, the Faculty reserves the right to modify course structures in order to eliminate the conflicts. Students will be advised during the enrolment period of the semester if the recommended courses need to be varied. Where the courses include elective subjects these should be chosen so that timetable clashes are avoided. In particular, students in combined degrees should plan their courses so that the subjects chosen in the other faculty do not clash with those recommended for the engineering component.</p> <p>Note: Students must not undertake Science Mathematics in place of 431-201 Engineering Analysis A and 431-202 Engineering Analysis B without first obtaining course advice.</p>																																																
Subject Options:	<p>THERE WILL BE NO FIRST YEAR ENTRY INTO THIS COURSE FROM 2008.</p> <p>Third Year</p> <p>Subjects listed below MUST be taken in this approved order, regardless of semester availability.</p> <p>Semester 1</p> <table border="1" data-bbox="389 763 1487 1081"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>431-201 Engineering Analysis A</td> <td>Semester 1</td> <td>12.500</td> </tr> <tr> <td>436-285 Engineering Design and Materials 1</td> <td>Semester 1</td> <td>12.500</td> </tr> <tr> <td>436-353 Mechanics 2</td> <td>Semester 1</td> <td>12.500</td> </tr> <tr> <td>730-365 Administrative Law</td> <td>Semester 1</td> <td>12.500</td> </tr> </tbody> </table> <p>Semester 2</p> <table border="1" data-bbox="389 1111 1487 1458"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>436-204 Systems Modelling</td> <td>Semester 2</td> <td>12.500</td> </tr> <tr> <td>436-286 Engineering Design & Materials 2</td> <td>Semester 2</td> <td>12.500</td> </tr> <tr> <td>730-386 Health and Medical Law</td> <td>Semester 2</td> <td>12.500</td> </tr> <tr> <td>620-293 Engineering Mathematics</td> <td>Summer, Semester 1, Semester 2</td> <td>12.500</td> </tr> </tbody> </table> <p>Fourth Year</p> <p>Subjects listed below MUST be taken in this approved order, regardless of semester availability.</p> <p>Semester 1</p> <table border="1" data-bbox="389 1581 1487 1843"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>436-351 Thermofluids 2</td> <td>Semester 1</td> <td>12.500</td> </tr> <tr> <td>436-384 Engineering Design & Processes 1</td> <td>Semester 1</td> <td>12.500</td> </tr> <tr> <td>730-366 Property</td> <td>Semester 1</td> <td>12.500</td> </tr> </tbody> </table> <p>Law Subjects as required (12.5 points)</p> <p>Semester 2</p> <table border="1" data-bbox="389 1901 1487 2040"> <thead> <tr> <th>Subject</th> <th>Study Period Commencement:</th> <th>Credit Points:</th> </tr> </thead> <tbody> <tr> <td>436-354 Mechanics 3</td> <td>Semester 2</td> <td>12.500</td> </tr> </tbody> </table>	Subject	Study Period Commencement:	Credit Points:	431-201 Engineering Analysis A	Semester 1	12.500	436-285 Engineering Design and Materials 1	Semester 1	12.500	436-353 Mechanics 2	Semester 1	12.500	730-365 Administrative Law	Semester 1	12.500	Subject	Study Period Commencement:	Credit Points:	436-204 Systems Modelling	Semester 2	12.500	436-286 Engineering Design & Materials 2	Semester 2	12.500	730-386 Health and Medical Law	Semester 2	12.500	620-293 Engineering Mathematics	Summer, Semester 1, Semester 2	12.500	Subject	Study Period Commencement:	Credit Points:	436-351 Thermofluids 2	Semester 1	12.500	436-384 Engineering Design & Processes 1	Semester 1	12.500	730-366 Property	Semester 1	12.500	Subject	Study Period Commencement:	Credit Points:	436-354 Mechanics 3	Semester 2	12.500
Subject	Study Period Commencement:	Credit Points:																																															
431-201 Engineering Analysis A	Semester 1	12.500																																															
436-285 Engineering Design and Materials 1	Semester 1	12.500																																															
436-353 Mechanics 2	Semester 1	12.500																																															
730-365 Administrative Law	Semester 1	12.500																																															
Subject	Study Period Commencement:	Credit Points:																																															
436-204 Systems Modelling	Semester 2	12.500																																															
436-286 Engineering Design & Materials 2	Semester 2	12.500																																															
730-386 Health and Medical Law	Semester 2	12.500																																															
620-293 Engineering Mathematics	Summer, Semester 1, Semester 2	12.500																																															
Subject	Study Period Commencement:	Credit Points:																																															
436-351 Thermofluids 2	Semester 1	12.500																																															
436-384 Engineering Design & Processes 1	Semester 1	12.500																																															
730-366 Property	Semester 1	12.500																																															
Subject	Study Period Commencement:	Credit Points:																																															
436-354 Mechanics 3	Semester 2	12.500																																															

436-311 Engineering Design & Processes 2	Semester 2	12.500
730-366 Property	Semester 1	12.500

Law subject as required (12.5 points)

Fifth Year

Subjects listed below **MUST** be taken in this approved order, regardless of semester availability.

Semester 1

Subject	Study Period Commencement:	Credit Points:
436-382 Control Systems 1	Semester 1	12.500

Law subjects as required (37.5 points)

Semester 2

Subject	Study Period Commencement:	Credit Points:
436-352 Thermofluids 3	Semester 2	12.500
620-370 Statistics for Mechanical Engineers	Semester 2	12.500
730-453 Remedies	Semester 2	12.500
730-454 Legal Ethics	Semester 1, Semester 2	12.500

Sixth Year

Subjects listed below **MUST** be taken in this approved order, regardless of semester availability.

Year Long

Subject	Study Period Commencement:	Credit Points:
436-492 Major Project and Professional Practice	Year Long	25.000

Semester 1

Mechanical Elective Group 1 (12.5 points)

Law subjects as required (25 points)

Mechanical Electives Group 1

Select one of the following electives:

Subject	Study Period Commencement:	Credit Points:
436-431 Mechanics 4	Semester 1	12.500
436-432 Thermofluids 4	Semester 1	12.500
436-470 Control Systems 2	Semester 1	12.500

Semester 2

Law Subjects as required (37.5 points)

Core Participation Requirements:

<p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p>
