

476-892 Classroom Strategies:Gifted Education

Credit Points:	12.50
Level:	9 (Graduate/Postgraduate)
Dates & Locations:	2009, This subject commences in the following study period/s: March, - Taught on campus.
Time Commitment:	Contact Hours: 18 hours Total Time Commitment: Not available
Prerequisites:	None
Corequisites:	None
Recommended Background Knowledge:	None
Non Allowed Subjects:	None
Core Participation Requirements:	<p><p>For the purposes of considering request for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Student Support and Engagement Policy, academic requirements for this subject are articulated in the Subject Overview, Learning Outcomes, Assessment and Generic Skills sections of this entry.</p> <p><p>It is University policy to take all reasonable steps to minimise the impact of disability upon academic study, and reasonable adjustments will be made to enhance a student's participation in the University's programs. Students who feel their disability may impact on meeting the requirements of this subject are encouraged to discuss this matter with a Faculty Student Adviser and Student Equity and Disability Support: http://services.unimelb.edu.au/disability</p></p> </p>
Coordinator:	Dr John Keith Munro
Subject Overview:	This subject examines the teaching of students who are intellectually gifted and talented. It examines (1) a general model for teaching gifted learners; (2) using the learning characteristics of gifted and talented students to identify the most appropriate instructional and pedagogic procedures; (3) implementing differentiated teaching and assessment based on identified categories of gifted learning (verbal gifted knowledge, mathematical gifted knowledge, nonverbal gifted knowledge); (4) the influence of culture on gifted and talented teaching procedures (teaching indigenous gifted students, students from other cultures; (5) gifted learning disabled students, their learning characteristics, identification and teaching; (6) classroom environment procedures likely to facilitate gifted learning (for example, grouping strategies, classroom management, peer and teacher/student relationships.
Objectives:	<p>On subject completion you should be able to:</p> <ul style="list-style-type: none"> # critically analyse and evaluate contemporary theories of gifted and talented learning and development in terms of their relevance for teaching practice and education; # develop and implement relevant selection and assessment procedures that are supported by current research in gifted and talented learning; # recommend appropriate instructional and pedagogic procedures; and # evaluate the effectiveness of assessment and education programmes intended for use with gifted learners from a contemporary research base.
Assessment:	A critical examination (review and analysis, approx 4,000 words) of an aspect in the education of gifted learners and its implications for teaching.
Prescribed Texts:	None
