

490-AA Master of Business and Information Technology

Year and Campus:	2009
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Level:	Graduate/Postgraduate
Duration & Credit Points:	
Contact:	Melbourne Graduate School of Management http://ecom-unimelb.custhelp.com (http://ecom-unimelb.custhelp.com/)
Course Overview:	<p>Business Savvy, enabled by IT. The Master of Business and Information Technology is designed to provide the essential business skills for leaders and professionals in the digital firm. The program provides a combination of core business knowledge together with essential skills in IT management. The program is ideal for graduates seeking managerial or commercial roles, not just in IT directly, but in any organisation seeking to develop strategic competencies and industry leadership through effective use of IT.</p> <p>A course plan will be devised for every student on entry to the program. The course planning process will take into account prior study, nature and length of work experience, and expected vocational outcome. Some advanced standing may be given depending on the nature and level of the prior study and work experience.</p>
Objectives:	<p>1. Learning Goal</p> <p>Graduates of this degree should be able to:</p> <p>Analyse and evaluate financial and market information to enable evidenced based business and IT decision making.</p> <p>Learning objectives to achieve this goal</p> <p>On successful completion of this degree students should be able to:</p> <ul style="list-style-type: none"> # Describe and explain the fundamental principles of markets # Describe and analyse the processes involved in generating accounting and financial information for decision making # Evaluate competing IT investments. <p>2.
