Course Overview:	<p>The Bachelor of Resource Management with Honours is the 4th year of the degree course and offered at the Parkville campus of the University. Students will need to travel to the Burnley campus for some subjects. The honours year in Resource Management is a very valuable year of study. It comprises advanced coursework and an individual research project designed to extend students' knowledge and research into sustainable management of our natural resources. After successfully completing the program, students will be prepared to either enter the workforce and pursue a career in environmental and resource management, or enrol for further research study through applying for a masters or doctor of philosophy degree.</p>																
Objectives:	<p>Students who have completed this course should have acquired:</p> <ul style="list-style-type: none"> # an understanding of natural resources, and how land, flora, fauna and water systems function; # an understanding of social systems and human behaviour as these relate to the use and conservation of natural resources and ecosystems; # an understanding of the concept of sustainable development and the interrelationship between the environment and social and economic constructs; # an understanding of technical and social strategies and tools for assessing and improving management of natural resources and ecosystems. 																
Course Structure & Available Subjects:	880-AA Bachelor of Natural Resource Management with Honours
