Subject Overview:	<p>While later Homeric texts portray the Greeks as a male dominated warrior culture and the Bible portrays the Philistines as treacherous and corrupt, archaeological evidence tells a more complex story. We will explore the vital cultures created by the Minoans and Mycenaeans of pre-historic Greece (the Aegean), which built monumental palaces and tombs, and look at how they legitimized their authority through art, religion, and the acquisition of exotic commodities from the east. The collapse of these civilizations at the end of the Bronze Age seems to have created a population of Aegean refugees that fought at Troy, attacked Egypt, Hellenized Cyprus, and settled in Israel, establishing the Philistine culture, which continued to produce Mycenaean-style pottery, iron, and other artifacts. We conclude with a look at the Philistines as an advanced culture influenced by the Canaanites, Cyprus, and the Aegean, which in turn influenced early Israelite culture.</p>
