| <b>Subject Overview:</b>                 | This subject explores notions of space, place, and architecture in theatre and performance. The architecture and location of theatre buildings, their changing shape through history, and their impact on performance styles will be examined. Conversely, urban and other sites will be analysed for their performative qualities and as spaces that "perform" culture. Concepts of "space", in theatre and performance, including physical, mental, textual, and cultural, as well as the articulation of space by light, objects and bodies will be considered. Students will be asked to analyse theatre and other architectural sites, and respond imaginatively to a design task relating space, theatre and architecture.  |
| <b>Objectives:</b>                       | demonstrate an understanding of the relationship between space architecture and theatre; work effectively both in a team and individually to present the results of research through both rational argument (written and verbal) and the creation of a design approach and concept; develop effective research methodologies for the investigation of a space and architecture in theatre; develop a creative design approach and concept for theatrical performance of a set text, foregrounding the medium of light, sound, set, architecture sight or a combination of these; demonstrate an understanding of the theatrical qualities of city spaces and architecture.  |
| <b>Assessment:</b>                       | Work equivalent to 4000 words consisting of a research essay of 2000 words 50% (due at the end of semester), a design analysis presented orally and in written form of 750 words 20% (due during the semester), and a collaborative design project to be presented in model, drawing, digital or some other format of 1250 words 30% (due during examination period). There is a hurdle requirement of a minimum 80% attendance.  |
| <b>Prescribed Texts:</b>                 | None  |
| <b>Recommended Texts:</b>                | Information Not Available   |
| <b>Breadth Options:</b>                  | This subject potentially can be taken as a breadth subject component for the following courses:<br># <b>Bachelor of Biomedicine</b> ( <a href="https://handbook.unimelb.edu.au/view/2009/J07">https://handbook.unimelb.edu.au/view/2009/J07</a> )   |
