Coordinator:	Dr Flavia Marcello, Mr Anthony Worm
Subject Overview:	Students will undertake one or more design projects which will focus on cultural and social aspects of the design process. Students will be required to analyse a complex program and then express this in an architectural form. This will provide students with an opportunity to learn and develop new knowledge and skills in theory, technology, history and communications, as well as to develop their existing architectural knowledge and skill. Most importantly, students must be able to integrate these things into their design proposals. For more specific information students should refer to the <i>Studio Guide</i> handed out at the beginning of the semester.
Objectives:	<p>On completion of the subject students should be able to:</p> <ul style="list-style-type: none"> # Generate architectural proposals suitable for medium scale public or institutional buildings # Develop design proposals that incorporate structural and environmental principles
Assessment:	Major and minor projects and a review of a portfolio of all assignments set during the semester. The portfolio may include group projects, studio exercises and presentations to the equivalent of 10 000 words.
