Coordinator:	Dr Anna Catherine Hurlimann
Subject Overview:	The purpose of this subject is to provide students with knowledge of techniques and skills used by urban planners. It develops understanding and skill in the use of the collection, analysis and representation of information. It outlines and applies elements of quantitative data collection, tabulation and interpretation, along with qualitative approaches involving observation, interviewing, survey designs, and other methods. The focus of assessment is upon tasks that develop and enhance the students' skill in the use of these techniques and their application to research projects. The skills developed will be applied in subsequent core and elective subjects and in the Masters research thesis.
Objectives:	<p>This subject aims to develop:</p> <ul style="list-style-type: none"> # Knowledge of techniques and skills involved in the research process; # Ability to analyse urban planning problems and shape a research project to address the issues identified; # Ability to write and make oral presentations on urban planning research.
Assessment:	Critical analysis task of 2000 words due in week 7 (40%); methodology exploration of 1,500 words due in week 12 (35%); 5 class exercises on techniques due weeks 2-6 (25% in total).
Prescribed Texts:	Reader supplied.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<ul style="list-style-type: none"> # Identification of critical issues / problems; # Written, verbal and graphic communication of ideas;

	# Ability to analyse social and cultural contexts.
