The program also equips students with a range of research skills that allow them to design and carry out data collection and analysis, from in-depth interviewing techniques to computer-based data analysis. Many subjects involve a fieldwork emphasis that underpins the professionally oriented skills that students develop. Majoring students may undertake an internship in a public, corporate or community sector organisation. The program has a strong research identity, with international links to North America, Asia and Europe. Sociology graduates are able to choose a variety of career paths that draw on the substantive areas of their study as well as research skills.
