

Mathematics and Statistics (Applied Mathematics specialisation)

Year and Campus:	2010																		
Coordinator:	.																		
Contact:	Email (http://studentadmin-unimelb.custhelp.com/cgi-bin/studentadmin_unimelb.cfg/php/enduser/ask.php?&p_srch=1&p_icf_47=945) the Science Student Centre																		
Overview:	Major study in Mathematics and Statistics , specialising in Applied Mathematics.																		
Objectives:	.																		
Structure & Available Subjects:	In 2010 a number of new third year level subjects have been introduced, replacing or adding to subjects previously available within the major. Some previously offered subjects have been cancelled. The University is committed to ensuring that students are not disadvantaged by these changes and students may complete a major as defined by the current structure or a structure detailed in a previous year's handbook applicable to any year the student was enrolled in the course. Students completing third year level subjects across multiple years (e.g. in 2009 and 2010) should refer to advice within each subject entry on non-allowed subject combinations. Students unsure about the structure of their intended major should seek advice from the Science Student Centre.																		
Subject Options:	<p>Mathematics and Statistics major (Applied Mathematics)</p> <p>In 2010 a number of new third year level subjects have been introduced, replacing or adding to subjects previously available within the major.
