Overview:	<p>Landscape Architecture is a design profession which provides a unique bridge between design and the environmental sciences. This major explores the practice, theory, history, and long-standing ecological sensibilities of the discipline. Landscape Architecture ranges across all scales of design encompassing large-scale public projects such as the Olympic Parks in Sydney and Beijing, to suburban development, to smaller urban spaces and gardens.</p> <p>Providing a unique bridge between the design professions and the environmental sciences, Landscape Architecture offers creative opportunities to engage in core ecological, cultural and social issues faced today.</p> <p>Students of Landscape Architecture are attracted to its creativity and diversity, its challenges and demands. This major explores the practice, theory, history and long-standing ecological sensibilities of the discipline.</p> <p>Careers and Further Study</p> <p>A major in Landscape Architecture prepares you either for employment or the two-year Master of Landscape Architecture program to become an accredited landscape architect. For more information about the Master of Landscape Architecture, please visit the Melbourne School of Design web site: http://www.abp.unimelb.edu.au/graduate-school/ (http://www.abp.unimelb.edu.au/graduate-school/)</p>											
Objectives:	<p>By the end of the three-year Bachelor of Environments degree with a Landscape Architecture major, you will have developed a strong base of design knowledge and competence across the landscape architecture discipline.
