

201BE Doctor of Philosophy - Business and Economics

Year and Campus:	2010 - Parkville
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Level:	Research Higher Degree
Duration & Credit Points:	Students are expected to complete this research in 3.00 years full time, or equivalent part time. Credit Points: 300
Coordinator:	The Melbourne School of Graduate Research
Contact:	<p>The Melbourne School of Graduate Research Graduate Centre (1888 Building) Grattan Street The University of Melbourne 3010 Australia</p> <p>Telephone: + 61 3 8344 8599 Fax number: +61 3 9349 2103</p> <p>Web: http://www.gradresearch.unimelb.edu.au/ (http://www.gradresearch.unimelb.edu.au/)</p> <p>Future Student Questions: http://gradstudies-unimelb.custhelp.com/ (http://gradstudies-unimelb.custhelp.com/)</p>
Course Overview:	<p>The Doctor of Philosophy is administered at The University of Melbourne by the Melbourne School of Graduate Research.</p> <p>The degree of Doctor of Philosophy signifies that the holder has undertaken a substantial piece of original research, which has been conducted and reported by the holder under proper academic supervision and in a research environment for a prescribed period.</p> <p>The PhD thesis demonstrates authority in the candidate's field and shows evidence of command of knowledge in relevant fields. It shows that the candidate has a thorough grasp of the appropriate methodological techniques and an awareness of their limitations. The thesis also makes a distinct contribution to knowledge. Its contribution to knowledge rests on originality of approach and / or interpretation of the findings and, in some cases, the discovery of new facts. The thesis demonstrates an ability to communicate research findings effectively in the professional arena and in an international context. It is a careful, rigorous and sustained piece of work demonstrating that a research 'apprenticeship' is complete and the holder is admitted to the community of scholars in the discipline.</p> <p>In scope, the PhD thesis differs from a research Masters thesis chiefly by its deeper and more comprehensive treatment of the chosen subject. It is written succinctly, in English, unless approval has been given for the thesis to be written in a language other than English. The normal length of a PhD thesis is 80,000 words, exclusive of words in tables, maps, bibliographies and appendices. Footnotes are included as part of the word limit. The thesis should not exceed 100,000 words (or equivalent) without special approval from the Research Higher Degrees Committee.</p>
Objectives:	See 'Graduate Attributes'
Course Structure & Available Subjects:	<p>Course structure - PhD</p> <p>Candidates for the degree of Doctor of Philosophy must demonstrate a capacity for independent research and must make an original contribution to learning. Candidates are required to present a thesis in such a form as the Academic Board may from time to time prescribe. Advice is available from the relevant Head of Department or the School of Graduate Research.</p> <p>Course Structure PhD with Coursework</p> <p>The Departments of Accounting and Business Information Systems, Economics, Finance, Management and Marketing and the Melbourne Institute offer a PhD with a coursework component. The course requires students to undertake a maximum of one year of coursework and two years of full-time research. Confirmation of candidature is approved on the basis of successful completion of the coursework subjects and an approved thesis proposal. The decision towards the degree is entirely based on the examination of the thesis. Examiners</p>

	<p>of the thesis are informed that the candidate has undertaken a course of study by thesis and coursework component, and that the thesis may be shorter than one presented by a candidate pursuing the degree by research alone, but should be comparable in research quality. The award of the PhD is based solely on the result for the Research thesis.</p> <p>A detailed information booklet, 'The Degree of Doctor of Philosophy' is available from the School of Graduate Studies, The University of Melbourne.</p>
Subject Options:	<p><i>PhD with Coursework (Accounting and Business Information Systems)</i></p> <p>Course structure</p> <p>The first year of coursework consists of eight semester-length subjects, approved by the Director of the PhD Program.</p> <p>Assessment</p> <p>Normally, PhD candidates are first admitted as 'probationary' candidates. To advance from probationary candidature to confirmed candidature, students must pass all the required subjects and present an acceptable dissertation proposal. To proceed to confirmation, the student must have an overall grade, based on an average of marks obtained in the subjects in first year, equal to or greater than 75%. Post-confirmation in years two and three of the program, students will conduct research leading to the completion of their dissertation.</p>
	<p><i>PhD with Coursework (Economics)</i></p> <p>Course Structure</p> <p>The first year of coursework consists of six semester-length subjects normally comprising four core subjects and two elective subjects and a year long (double subject) Thesis Workshop.</p> <p>Four core subjects:</p> <p>316-611 Microeconomics 316-612 Macroeconomics 316-654 Advanced Econometric Techniques 316-650 Microeconomics II or 316-652 Macroeconomics II or 316-658 Macroeconometrics or 316-659 Microeconometrics or 316-672 Bayesian Econometrics</p> <p>Two elective subjects:</p> <p>Subjects may be selected from other six-hundred level subjects. The candidate's choice must be approved by the Academic Convenor of the PhD program in Economics. Please note that subject offerings may vary over time.</p> <p>Thesis proposal and workshop (double subject):</p> <p>316-703 Economics Thesis Workshop</p> <p>Assessment</p> <p>Normally, PhD candidates are first admitted as 'probationary' candidates. The move from probationary candidature to confirmed candidature is decided on the recommendation of a Confirmation Committee, comprising three academics including the Convenor of the PhD program in Economics and the student's supervisor. For confirmation, which usually occurs 12 to 15 months after enrolment in the PhD program, students are required to obtain an average of at least 75% in their PhD coursework subjects, to have prepared a written proposal that outlines the research program and shows evidence of substantive progress and to have made an oral presentation based on their thesis proposal. The presentation is open to all members of the Department of Economics. The Committee will recommend confirmation if it believes there is a reasonable expectation that the student will complete the PhD thesis by the due date.</p> <p>Students are required to maintain satisfactory progress throughout their candidature. In addition to the regular meetings with supervisor(s), progress is monitored through the confirmation process and annual reports. The award of the PhD is based solely on the examination of the thesis.</p>
	<p><i>PhD with Coursework (Finance)</i></p> <p>Course Structure</p>

The first year of coursework consists of six semester-long subjects comprising one economics subject, two quantitative subjects, three finance subjects and a year long (double subject) Thesis Workshop.

A. One economics subject selected from:

316-611 Microeconomics

316-612 Macroeconomics

B. Two quantitative subjects selected from:

333-627 Numerical Techniques in Finance

316-679 Mathematical Economics

316-673 Financial Econometrics

316-678 Econometric Techniques

316-654 Advanced Econometric Techniques

316-657 Special Topics in Advanced Econometrics

316-658 Advanced Macroeconometrics

316-659 Advanced Microeconometrics

C. Two PhD-level finance subjects:

333-713 Finance Theory: Investments

333-714 Finance Theory: Corporate Finance

D. One finance subject chosen from:

333-615 International Business Finance

333-617 Financial Institutions Management

333-618 Advanced Derivative Securities

333-715 Special Topics in Finance

Students may choose alternatives to those listed in A, B or D with the approval of the Department's Research Programs Academic Director. The majority of subjects taken in A, B and D must be at level 6 or above.

E. Dissertation proposal and workshop (double subject):

333-703 Finance Thesis Workshop

Assessment

Students are required to attain an average mark of at least 75 percent in their coursework in the first year and satisfy the requirements of a confirmation seminar. The award of the PhD is based solely on the result of the thesis.

PhD with Coursework (Management and Marketing)

The objectives of the Doctor of Philosophy (PhD) in the Department of Management and Marketing are:

- # to enable doctoral students in Management and Marketing to gain a common understanding of the research process;
- # to enable doctoral students in Management and Marketing to develop research skills at the start of their candidature; and
- # to prepare doctoral students for an academic career in Management or Marketing.

Duration

The duration of the PhD program is three years full time or six years part time.

Commencement

Commencement is only available at the start of semester one (February/March) of any given year. Candidates must commence their studies within the first two weeks of semester.

Structure

The PhD in Management requires students to complete two coursework subjects and a research thesis.

In the first year of their candidature students undertake two coursework subjects that introduce the key topics and decisions relevant to research in the management and marketing domains. The specific expectations of the Department are also outlined. These two subjects are:

- # 325-710 Research Methods in Management and Marketing; and
- # 325-711 Research Decision in Management and Marketing.

These subjects are marked on a pass/fail basis.

Candidates also commence work on their research thesis in their first year of candidature. The thesis must be based on original work, and candidates should aim for it to be approximately 80 000 words in length in its completed form.

In the second and third full time (or equivalent) years of the program, students continue to work on their thesis.

Confirmation

Candidates should be aware that when they are accepted into the program, they are admitted as a probationary candidate. At the end of their first year of studies students must undertake the confirmation process. In order to meet the requirements of the confirmation process students must have:

- # passed the two coursework subjects;
- # produced a written report deemed satisfactory by the Confirmation Committee that details what the candidate has undertaken and learned since commencing their studies; and
- # given a formal presentation to staff and higher degree research students of the department on their findings to date.

Assessment

The award of the PhD is based solely on the result of the thesis. The thesis will be assessed by two external examiners.

PhD with Coursework (Melbourne Institute)

Course Structure

The Melbourne Institute offers a PhD degree that incorporates some coursework provided by the Department of Economics. All PhD students in the Melbourne Institute program are normally required to do at least 6 subjects. In special circumstances, the number of coursework may be reduced to at least 3.

The first year of coursework consists of six semester-length subjects normally comprising three core subjects and three elective subjects and a year long (double subject) Thesis Workshop.

The three core subjects:

316-611 Microeconomics
 316-612 Macroeconomics
 316-654 Advanced Econometric Techniques

Three elective subjects:

316-650 Microeconomics II
 or 316-652 Macroeconomics II
 or 316-658 Macroeconometrics
 or 316-659 Microeconometrics
 or 316-672 Bayesian Econometrics

Subjects may be selected from other six-hundred level subjects. The candidate's choice must be approved by the Academic Convenor of the PhD program in the Melbourne Institute and the Economics. Please note that subject offerings may vary over time.

Thesis proposal and workshop (double subject):

316-703 Economics Thesis Workshop

Assessment

Normally, PhD candidates are first admitted as 'probationary' candidates. The move from probationary candidature to confirmed candidature is decided on the recommendation of a Confirmation Committee, comprising three academics including the Convenor of the PhD program in the Melbourne Institute and the student's supervisor. For confirmation, which usually occurs 12 to 15 months after enrolment in the PhD program, students are required to obtain an average of at least 75% in their PhD coursework subjects, to have prepared a written proposal that outlines the research program and which should also show substantive progress and to have made an oral presentation based on their thesis proposal. The presentation is open to all members of the Melbourne Institute of Applied Economic and Social Research. The Committee will recommend confirmation if it believes there is a reasonable expectation that the student will complete the PhD thesis by the due date. Students are required to maintain satisfactory progress throughout their candidature. In addition to the regular meetings with supervisor(s), progress is monitored through the confirmation process and annual progress reports. The award of the PhD is based solely on the examination of the thesis.

Entry Requirements:	<p>The criteria for assessing applicants' eligibility for PhD candidature are:</p> <ol style="list-style-type: none"> 1 Minimum qualifications Applicants are normally required to have completed at least a four-year honours degree at H2A standard from an Australian university, or a qualification or combination of qualifications considered by the RHD Committee to be equivalent. For particular disciplines applicants are also required to complete, at an appropriate level, a Graduate Management Admissions Test (GMAT) or a Graduate Record Entry (GRE) test. 2 Minimum level of academic achievement Applicants should have achieved an overall H1 (80-100%) or H2A (75-79%) grade in the relevant honours or Masters degree. 3 Relevance of the degree The completed degree must be in an area that is relevant to the intended PhD, including sufficient specialisation such that the applicant will have already developed an understanding and appreciation of a body of knowledge relevant to the intended PhD. 4 Evidence of research ability Applicants are normally required to have completed a research project/component that accounts for at least 25% of their year's work at 4th year or at Masters level. Graduates of certain professional degrees at the University of Melbourne, including MBBS, BVSc, LLB, BPhysio and BEng are deemed to have met this requirement. 5 Currency of applicant's knowledge of the discipline The applicant's degree/s and/or professional experience must demonstrate that their knowledge of the discipline in which they plan to undertake their research higher degree is current. 6 Assessment of level of commitment Based on interview or other communication, an assessment should be made of the level of understanding, motivation and time commitment of the student for the proposed program of study. For example, a full-time student would be expected to devote at least 40 hours a week and a part-time student about half of this. <p>Applicants must also meet the University's English Language requirements (http://www.futurestudents.unimelb.edu.au/courses/pgenglishreq.html) .</p> <p>Additional criterion: your area of interest, see http://www.gsbe.unimelb.edu.au/future/admissions/how_research.html (https://owa.unimelb.edu.au/exchweb/bin/redir.asp?URL=http://www.gsbe.unimelb.edu.au/future/admissions/how_research.html) .</p> <p>Please note that prospective students wishing to undertake the PhD with Coursework (Accounting and Business Information Systems) are also required to complete a Graduate Management Admissions Test (GMAT) and obtain a score of at least 600.</p>
Core Participation Requirements:	<p>For the purpose of considering requests for Reasonable Adjustments under the Disability Standards for Education (Cwth 2005), and Students Experiencing Academic Disadvantage Policy, academic requirements for this course are articulated in the Course Description, Course Objectives and Generic Skills of this entry. The University is dedicated to provide support to those with special requirements. Further details on the disability support scheme can be found at the Disability Liaison Unit website: http://www.services.unimelb.edu.au/disability/</p>
Graduate Attributes:	<p>Doctoral degrees at the University of Melbourne seek to develop graduates who demonstrate academic leadership, increasing independence, creativity and innovation in their research work. The University expects its doctoral graduates to have the following qualities and skills: an advanced ability to initiate research and to formulate viable research questions; a demonstrated capacity to design, conduct and report sustained and original research; the capacity to contextualise research within an international corpus of specialist knowledge; an advanced ability to evaluate and synthesize research-based and scholarly literature; an advanced understanding of key disciplinary and multi-disciplinary norms and perspectives relevant to the field; highly developed problem-solving abilities and flexibility of approach; the ability to analyse critically within and across a changing disciplinary environment; the capacity to disseminate the results of research and scholarship by oral and written communication to a variety of audiences; a capacity to cooperate with and respect the contributions of fellow researchers and scholars; a profound respect for truth and intellectual integrity, and for the ethics of research and scholarship; an advanced facility in the management of information, including the application of computer systems and software where appropriate to the student's field of</p>

	study;an understanding of the relevance and value of their research to national and international communities of scholars and collaborators;an awareness where appropriate of issues related to intellectual property management and the commercialisation of innovation; andan ability to formulate applications to relevant agencies, such as funding bodies and ethics committees.The University provides a variety of opportunities in addition to the supervised research program, to facilitate a students' acquisition of these attributes.
