<b>Course Overview:</b>	<p>NOTE: This course is in phase-out mode and is no longer accepting applications for admission.</p> <p>Current students needing assistance with course planning for completion of the course requirements should contact the Arts &amp; Music Student Centre.</p> <p>Environmental studies at the University of Melbourne is amongst the top-ranking programs of its kind in Australia and New Zealand. Talented academic staff enjoy international recognition for their scholarship and original research, often conducted in collaboration with international colleagues and directed to project-based outcomes. Environmental studies combines a knowledge of natural environments with an understanding of how human societies work, in order to address a range of issues and problems concerned with environmental management. It addresses the biogeography and sustainability of environments, particularly as these are impacted upon by forces of development. Ecological and hydrological issues are addressed in the context of risk assessment and management approaches within regulatory frameworks. This versatile program enables students to gain practical and relevant experience in laboratory classes, group project work and field trips, including fieldwork research in China.</p> <p>These activities and the excellent facilities and resources provided by the School of Social and Environmental Inquiry ensure that students will obtain maximal benefits from their study. The major in environmental studies can be used as a pathway to postgraduate study in landscape architecture or the articulated structure of higher degree study options at the University of Melbourne's Office for Environmental Programs. Graduates of environmental studies at the University of Melbourne gain the experience and qualifications required for professional careers with government agencies, regulatory bodies and in private industry with environmental consulting firms.</p>

<b>Entry Requirements:</b>	NOTE: This course is in phase-out mode and is no longer accepting applications for admission.
<b>Core Participation Requirements:</b>	The Diploma in Arts requires a standard level of ability across all disciplines. It will be assumed students are able to access and attend classes on a regular basis, are capable of learning in a University environment and will be able to take responsibility for their own learning. Any ability beyond this threshold will be robustly supported through the curriculum. There are no pre-requisites for first year subjects, and any intensive use of IT or technologies will be adequately supported. Certain subjects have more specific requirements and demands, such as fieldwork or travelling, which are clearly outlined in the Handbook's subject description. However, the University is dedicated to provide support to those with special requirements. The Faculty Disability Contact Officer works with students, the University Disability Liaison Unit and teaching staff to assist students with their special requirements, with a particular focus on accommodations for in-class and examination assessment tasks. Further details on the disability support scheme can be found at <a href="http://www.services.unimelb.edu.au/disability">http://www.services.unimelb.edu.au/disability</a> .
<b>Further Study:</b>	The School of Social and Environmental Inquiry offers a range of postgraduate programs in environmental studies. These include: Postgraduate Diploma in Arts (Environmental Studies); MA (Environmental Studies) by research thesis only. The School also offers PhD supervision to students undertaking research in a wide range of areas in environmental studies. In addition, a major in environmental studies offers a pathway for students who wish to gain privileged entry into the Master of Landscape Architecture: see Faculty of Architecture, Building and Planning
