Course Overview:	<p>This course aims to provide students with wide ranging skills that will enhance their effectiveness as managers working in international business. It provides a solid grounding in strategic thinking, relative to international and global market operations, and an understanding of how operating across borders impacts on functional areas (such as marketing, accounting, finance and HRM). This course should also develop an awareness of the policies governing the world trade and investment system, from the perspectives of a sovereign country, a regional trade bloc and a supra-national institutional (such as the IMF, World Bank and WTO). The course emphasises the Asia-Pacific region and pursues a cross disciplinary approach to analysing and solving complex problems.</p>
Objectives:	<p>1. Learning Goal</p> <p>Graduates of this degree will be able to generate and analyse data relevant for strategic management decisions in the area of international business.</p> <p>Learning objectives to achieve this goal</p> <p>On successful completion of this degree students will be able to:</p> <ul style="list-style-type: none"> # Describe, explain and apply the fundamental principles of strategic management; # Identify the various sources of sustained competitive advantage of firms engaged in international business; and # Evaluate the impact of cultural, political and environmental factors on decision making in international business. <p>2.
