<b>Subject Overview:</b>	<p>This subject was formerly called Architecture Design Studio 2.</p> <p>The core of the undergraduate design sequence is the development of both design thinking and dexterity with tools. As an extension of 702-239 (ABPL20027) Architecture Design Studio 1: Earth, the focus of this second design subject will be the generation and articulation of design possibilities through a series of studio projects. Linking these investigations will be the theme of <i>water</i>, which may be explored conceptually, metaphorically, structurally, or technologically – e.g. waterproofing, rain screens, hygiene, perspiration, sports centres, hydraulics, humidity, marine or riverine environments, pools.</p>												
<b>Objectives:</b>	<p>For students to:</p> <ul style="list-style-type: none"> <li># demonstrate an ability to interrogate a brief;</li> <li># demonstrate an ability to generate a variety of design possibilities for a given situation;</li> </ul>												

	<ul style="list-style-type: none"> <li># develop skills in choosing and using appropriate representational media;</li> <li># demonstrate an understanding of relationships between architecture and water through the application of the first three points above;</li> <li># develop an ability to present and justify design proposals.</li> </ul>
<b>Assessment:</b>	First project assessment due at end of week 4 (15%);Second project assessment due week 12 (50%);Reflective journal due week 13 (25%);Participation (10%).Total of all assessment tasks is equivalent to 5000 words
