Subject Overview:	This subject is an introduction to the study of gender, sex and sexuality exploring the recent histories of feminisms and feminist thinking about gender, difference and the origins of sexual inequality. Key themes include: structures and institutions of sexual inequality including the family, marriage, mothering, sexual divisions of labour, masculinities and femininities, bodies and sexualities. and their relationships to the workings of power, especially the intersections of gender and sexuality with "race", ethnicity, class and nation. The final section of the course considers "third world" feminisms and postfeminism in a transnational and global context.		
Objectives:	Students who successfully complete this subject  # complete the subject with the ability to demonstrate a sound understanding of the main developments in feminist theorising about sex, gender and identity and of the issues involved in debates about feminist knowledges.  # a sound understanding of the main frameworks for the analysis of gender relations within social structures and institutions and debates about feminist knowledges, with a particular focus on cross-cultural comparisons of such frameworks  # an awareness of the main developments in feminist thinking about the origins and historical development of gender inequality  # a good understanding of the main developments in feminist thinking about the relationships between culture, gender and identity and the intersections of gender, race, ethnicity and class.		
Assessment:	A group tutorial presentation and paper of 750 words 15% (due during semester), a research essay 2000 words 55% (due mid-semester) and a reflective essay 1250 words 30% (due in examination period).
