Subject Overview:	This subject extends the work undertaken in Minor Thesis (Music Therapy) 1. Clinical Placements will be undertaken independently in a facility nominated by the School of Music, unless otherwise negotiated. Students will implement the research project designed in Semester 1 and evaluate outcomes of the clinical work using either qualitative or quantitative paradigms. Tutorials will develop skills in the implementation of the project, data collection and evaluation, as well as development of appropriate writing and research skills.						
Objectives:	On completion oOn completion of this subject, students should be able to:						

	<ul style="list-style-type: none"> # Conceive, plan, implement and evaluate a music therapy program within a clinical facility; # Implement a research project suitable to the clinical setting that results in qualitative or quantitative results; # Demonstrate confidence in their ability to articulate the role of music therapy in the selected settings; # Show a command of research literature and relate this to the current project.
Assessment:	A 15,000-word thesis comprising literature review, method, results and discussion, due at the end of semester (80%); clinical training assessment, completed by supervisor (20%).
Prescribed Texts:	None. For Blended Learning Delivery: Resources available on the LMS will include information about assessment requirements.
Breadth Options:	This subject is not available as a breadth subject.
Fees Information:	Subject EFTSL, Level, Discipline & Census Date, http://enrolment.unimelb.edu.au/fees
Generic Skills:	<p>On completion of this subject, students should have developed:</p> <ul style="list-style-type: none"> # A high level of ability in applying theory to practice; # A high level of ability in designing a research project; # A high standard of writing skills.
