Subject Overview:	The respective roles and interactions between business and government are crucial for the political economy of a country. Because of its productive function, business enjoys a privileged position with government, while a major part of government is concerned with the monitoring and managing of business. The structure and role of both have been changing rapidly in recent times, as have the conceptual tools for understanding them. This subject critically reviews contemporary writing and developments and uses case examples to familiarise students with theoretical, normative and practical issues for both sides of this important relationship. On completion of the subject, students should have an understanding of the character and inter-relationship of business and government in contemporary society including: changing private and public sector boundaries. the re-configuration of the mixed economy. the neo-liberal paradigm and its critics. the impact on business of the socio-political environment. the role of interest groups in public policy. changing expectations of corporate governance. the role of business advocacy. government regulation of business. alternatives of self regulation and co-regulation. the effects of globalisation. and the growth of the transnational corporations.
Objectives:	<ul style="list-style-type: none"> # have an advanced understanding of the character of inter-relationship of business and government in contemporary society. # have developed skills in research and analysis in select topics in the field. # facility for applied research in contemporary issues in the field. # have detailed knowledge of the way business interacts with government and government manages business relations.
Assessment:	A review essay of 750 words (15%) due early in semester, a research paper of 3000 words (60%) due in the examination period, and a group project equivalent to 1250 words (25%) due in the examination period.
Prescribed Texts:	A subject reader will be available for purchase from the University Bookshop.

Breadth Options:	This subject is not available as a breadth subject.
