<b>Subject Overview:</b>	To develop and address a research question in an area of International Public Health which can be answered by a critical review of the published and unpublished literature, by the analysis of an existing data set or the development of a research protocol. Supervisors will be health professionals in active practice in international public health.
<b>Objectives:</b>	To provide the student with the skills to demonstrate her/his ability to integrate and apply international health research principles and practice to a specific health issue or question.
<b>Assessment:</b>	Initial 15-minute verbal presentation (10%); final 15-minute presentation (20%); written report, of between 5,000-10,000 words (70%). Students must pass the written report assessment and must receive a combined score for the research report and the presentations of at least 50% in order to pass the subject.
<b>Prescribed Texts:</b>	None
<b>Recommended Texts:</b>	None
<b>Breadth Options:</b>	This subject is not available as a breadth subject.
